The New Double-Arched Fork-Crown

USED ONLY ON

Iver Johnson Cycles

THIS fork-crown is made from a solid drop-forging, and in addition to the strength derived from a double-arch, it also has square shoulders, which, while they add to the beauty of the fork, also add greatly to the strength, as they stand the strain.

...The Strongest Fork Ever Made.

Exhibit at New York Show, spaces 77 and 78.

FITCHBURG, MASS.

BRANCHES:
NEW YORK, 99 Chambers St.
BOSTON, 408 Washington St.
WORCESTER, 304 Main St.

"JUPITER"
PURE CAST STEEL CASTINGS.

Made directly from the best steel scrap.

We desire to put our "Jupiter" castings into competition—

I. With drop-forgings, claiming equal tensile strength and that they will weld, case-harden, temper or mill equally as well.

II. With ordinary steel castings, claiming that the superior strength of our steel (and it is homogeneous throughout) permits much greater lightness and we can ship our castings on the second day after receipt of patterns.

III. With tools made from the best tool steel, claiming perfect tempering qualities and equal durability.

We make our steel hard or soft as required. Its tensile strength is 68,000 lbs., Government test.

NEW YORK, Nov. 26, 1897.

NORTH AMERICAN METALINE CO., 43 Third St., Long Island City, N. Y.

Gentlemen: Your favor of 20th inst. received; in reply are pleased to say that your Metalined Bushings have given us entire satisfaction. We first applied them in 1886 or '87 under very trying conditions, put them in fast running loose pulleys with high tension belt, and they gave perfect satisfaction. Since then, we have extended their use throughout our works, and they have given satisfaction wherever we have placed them. Very truly yours,

JAS. PYLE & SONS.

New "Cold" Process of Galvanizing.

In use for more than two years with best and absolutely satisfactory results. Articles that cannot be galvanized by any other process, such as screws, nuts, cutting instruments, tools of every description, springs, locks, artistic metal articles, can be galvanized in a superior manner by this process. The multitude of articles that can be galvanized is without limit. Uniformly smooth surface is preserved, thickness of coating can be regulated, saving of spelter about 80%, besides many other advantages. *We grant licenses for territory, also shop rights on royalty basis.*

Fulton Engineering & Ship Building Works

Not responsible for delay or non-fulfillment of contract when caused by strikes or acts of providence or other unavoidable causes

San Francisco Sept. 29/98.

Hoyt Metal Co.,
St. Louis, Mo.

Gentlemen:-

Reporting on the merits of the Nickelehe Babbitt Metal, we have used a large quantity of it with the most satisfactory results. It has given better satisfaction than any other babbitt metal we have used, including all the standard brands, particularly for electric and marine engine bearings where it is subject to the severest duty.

We will be pleased to give you or others the names of steamers using it, also the names of their engineers and owners to whom any one can write. Without exception we believe, that all will speak favorably of it and from our own experience with it and other metals we decidely recommend it.

Very truly,
FULTON ENGINEERING & SHIP BUILDING WORKS.

Dict. by J. S. Sr. *James Spiers Pres*

YOU WILL SEND US AN ORDER.

HOYT METAL CO.. ST. LOUIS, MO. ARLINGTON N. J.

Nickelene, although very hard, is so tough that it can be hammered to a knife edge.

Nickelene is being used by many in place of Phosphor Bronze.

Nickelene can be melted in an iron ladle or kettle, and at a little higher temperature than that necessary for melting Babbitt Metal, runs freely and makes a good casting.

NICKELENE IS THE BEST BABBITT METAL IN THE WORLD.

WRITE US FOR PRICE.

ATLAS METAL.
TENSILE 50,000 POUNDS.
Atlas Metal is defined by Prof. Charles James, the well-known Steel Expert, as "A New Commercial Product, standing between Iron and Steel, and uniting in itself the best characteristics of both."
ITS CHIEF POINTS ARE
GREAT STRENGTH. GREAT WEAR. UNIFORMITY. EASILY MACHINED.
HOMOGENEOUS.—Atlas Metal is not surface treated—the castings can be made of any weight, size or thickness, and the metal will be of uniform structure and entirely homogeneous throughout.

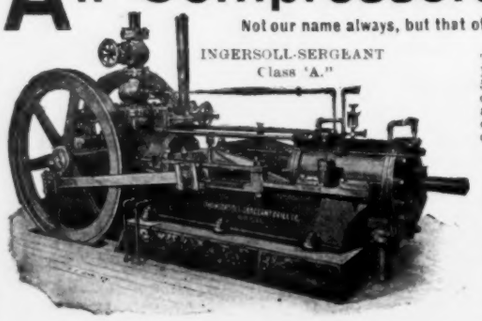
Air Compressors

Catalogue No. 32.

Not our name always, but that of others to show what can be done.



INGERSOLL-SERGEANT Class "A."

The Passaic Rolling Mill, Paterson, N. J., with a monthly output of 5,000 tons of structural steel, use 40 cylinder hoists, 12 riveters, 5 drills and reamers, 2 chipping tools and other apparatus, all operated by compressed air from an Ingersoll-Sergeant Class "A" Straight Line Piston Inlet Air Compressor. The plan of distribution of air power necessitated careful engineering and close investigation of the merits of Air Compressors to secure good results. It is the high-class machine, built rigidly, embodying every detail of scientific construction, that wins in a test like this.

Catalogue No. 41, ROCK DRILLS — Mines, Quarries, Tunnels Contract Work, Good Roads.
Catalogue No. 72, POHLE AIR LIFT PUMP — Water Works, Railroads, Factories, Irrigation, Etc.

The Ingersoll-Sergeant Drill Co., Havemeyer Building, New York.

Don't be misled

into thinking that you will save money if you buy a second-rate steam or electric pump. Such an investment is poor economy. You will find after you have used a cheap pump a little while that your money has been literally thrown away. The various amounts you will be forced to spend for repairs from time to time will lighten your purse. Purchase a Worthington machine. There is no better on the market. If you have not a copy of our catalogue, we will be glad to forward one on receipt of request.

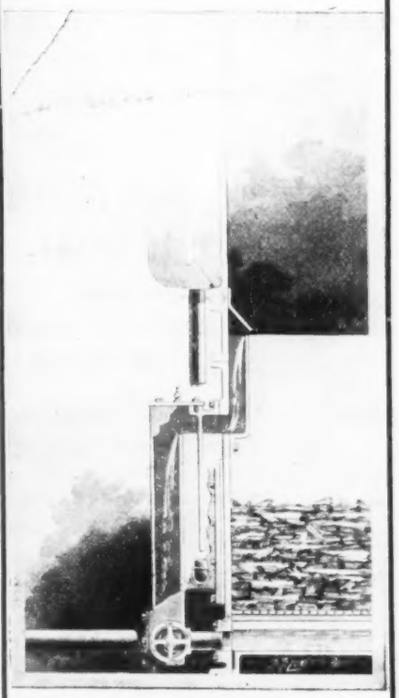
Some of the Constructional Advantages of the

Cochrane Heaters.



A PROPER OVERFLOW.

Perhaps you are not acquainted with the arrangement used for passing to waste the water and oil taken out by the oil separator on each of these Heaters, as well as the excess water when flushing or skimming, etc.

Now, the problem is to get rid of the water and oil at all times, to prevent air from being drawn into heater, incidentally not to allow steam to escape unless the pressure exceeds one pound per sq. in., and to do this most reliably, without attention. You will appreciate that we accomplish the result in a thoroughly practical manner by referring to the illustration presented herewith. We use nothing more or less than a water seal, the equivalent of a "U"; that is, a column of water has to be displaced by the steam pressure before any steam can escape.

The skimmer, which is on the inside of the Heater, is made with a wide mouth, so that all the surface water can be drawn off. The excess water falling over into the skimmer raises the head of water in the water trap or seal, and this displaces an equal quantity of water in the other leg of the "U." The water displaced then runs free to the waste. Nothing could be simpler or better adapted for the purpose. The openings are perfectly free, of full size, and no valve of any kind is used. Valves are bad things in waste pipes, for they will stick. The valve you see in the illustration is an angle valve in the blow-off pipe, which pipe enters the waste at the side of the water seal. It has nothing to do with the overflow.

There are lots of other good points about these "Cochranes"—note the arrangement for carrying coke as a filtering material.

Yours for hot water and real purification,

Harrison Safety Boiler Works,

Heater Department,

"Iron Business Booming."

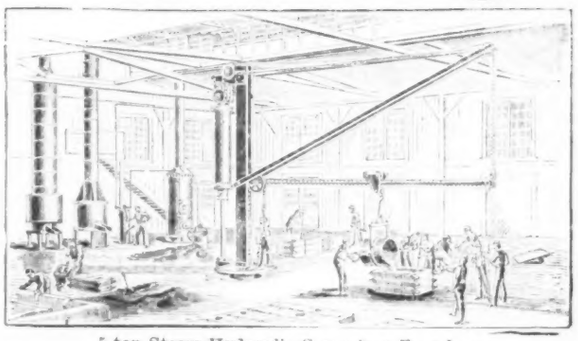
That's what the newspapers say.

How much more a pound are you getting for castings?

Added one-tenth of a cent to that bid the other day and lost the contract, eh?

Pig iron is from fifty cents to a dollar a ton higher, and yet you are selling castings at same old figures

Reckon you would like to see some good for you in the "boom" the papers are talking about. Well, here's the road to it. You have lots to do even if the prices are no better Such being the case, get Ridgway Cranes for doing the work, and you will make money at the old price per pound by the saving the Ridgway Cranes will make in the cost of castings. Some of our customers say, with the Ridgway Cranes the same molders will turn out fifty per cent. more work for the same wages That's a mighty big save if it is true. At any rate hundreds of the best establishments all over the country have Ridgway Cranes, and are continually getting more of them. They must be somewhere near what we claim for them as money makers. If you are a smart man you will investigate a machine claiming so much, and keeping continually at it.



5 ton Steam-Hydraulic Crane in a Foundry.

HYDRAULIC AIR HOISTS.

That's really a misnomer, but it is a good name. Machine goes by Air, hydraulic regulates the motion and makes a perfect air hoist.

There is no machine we know of so easy to try as an Air Hoist. All you have to do is to hang it up and connect the hose Get the Ridgway Safe and Gentle Hoist and try it. *Just One* in use in your shop will tell the whole story. Best shops are getting them.

SAGINAW MANUFACTURING COMPANY,

SAGINAW, W. S., MICH.

New York Branch,
44 Dey St.

Sold and used everywhere.

Schofield's Bi-Treadle Emery Wheel is warranted to grind faster with less labor than any other foot power emery wheel on the market and is sold for less money.

MANUFACTURED BY
SCHOFIELD & CO., - FREEPORT, ILL.

The American Steel Split Pulley.

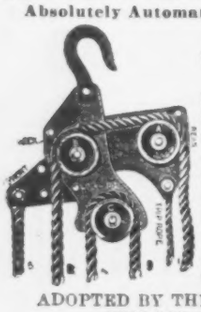
Patd. and Pats. pending in U. S. and Foreign Countries.

Strong, Light.
Perfectly Balanced.
Bushings to Fit any Shaft.
No Shrinkage. No Fire Risk.

THE AMERICAN PULLEY CO.,
1744 Hamilton St., - Philadelphia, Pa., U. S. A.

The Burr Steel Safety Lift.

Absolutely Automatic and Adjustable.



A Patented Self-Locking Rope Tackle Block. Can be used for all purposes in any position where an ordinary set of pulleys can be used. Never injures the rope. Never fails to lock. The load can be lowered with one hand, with more accuracy and safety than with a chain block.

ADOPTED BY THE PENN. R. R. CO.
SEND FOR CIRCULARS.

A Chuck that Holds.

The trouble with ordinary chucks is that the jaws have to centre the tool and drive it too. It's too much; like an overloaded horse, they slip, and wear out, and break down.

In the Pratt Chuck the jaws have only to hold the tool perfectly true; the positive driver does the driving it can't slip, even if the jaws are not tightened.

It pays to have tools that will always keep at work.

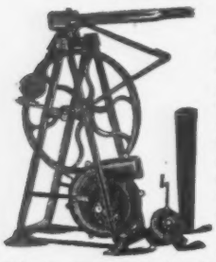
The New Champion 1898 ANGLE STEEL Blacksmith Blower.

Made with Lever only or with both Lever and Crank.



The New Champion 1898 Angle Steel Blacksmith Blower frame is constructed on new principles, getting entirely away from the old and faulty construction of spreading the four ends at the lower end or base of the frame, where stiffness and firmness is most essential.

The New Champion Angle Steel Frame is entirely reversed; it has its bent and stiff parts of the angle steel for its base, and the "four" ends are stamped together at the top or upper end of the frame, connecting all the ends at the smallest possible centre, with the lever knuckle joint on top of the "four" ends, giving a direct downward motion and placing the strain of the lever motion equal on the four uprights, thus forming a binding truss, giving strength and rigidness that was never thought possible to obtain on a blower frame heretofore, also taking away entirely the usual twisting of the frame where the lever knuckle joint is placed in the corner, and the entire strain of the lever motion continually working on one upright.

Fan 16 inches and Fly Wheel 28 inches in diameter—has the capacity of a 50-inch bellows, with our Patent Tuyere Iron and Piping complete, with Lever only.....$15.00

With Lever and Crank combined..... 17.50

"BLISS" POWER WIRING AND HORNING PRESS, PAT'D.

This press, though especially intended for wiring and horning coffee and tea pots, pails, cans, canisters, biscuit tins, etc., is largely used for perforating seamless drawn cullenders, pierced ladles, soup and vegetable strainers, for which purpose it is furnished with a special attachment. It is also made with the table so hinged to the column that it may readily be swung out of the way when the press is to be used for horning. It is made in seven sizes weighing from 900 to 2,300 lbs.

Cold Rolled Steel Mill.

All kinds of machinery, new and second-hand, at very reasonable prices.

Locations for Industries.

The Chicago, Milwaukee and St. Paul Railway Company has all its territory districted in relation to resources, adaptability and advantages for manufacturing, and seeks to secure manufacturing plants and industries where the command of raw material, markets and surroundings will ensure their permanent success.

A number of new factories and industries have been induced to locate—largely through the instrumentality of this company—at points along its lines.

The trend of manufacturing is Westward. Confidential inquiries are treated as such. The information furnished a particular industry is reliable.

Address

LUIS JACKSON,
Industrial Commissioner, C., M. & St. P. R'y,
Old Colony Building, Chicago, Ill.

FOR SALE.

About 1,500,000 lbs. Steel Plates,

myself infinitely prefer performance to promise, and in such preference will scarcely be regarded as eccentric.

I can learn more of any one's advertising possibilities from a few "inches" of his actual work than from "ells" of his promises, be they never so specious and seductive. I desire to be measured by precisely such standard, and will be pleased to mail, to interested correspondents (without charge), a liberal collection of miscellaneous samples of my work.

By "Interested Correspondents" I mean persons who desire to further investigate seeming opportunities to better their present advertising ventures, and not merely idle clerks or office boys with nothing but curiosities to be satisfied—distinctly not such.

I make Circulars, Folders, Price-Lists, Catalogues, Trade Primers, Circular Letters, Announcements, Mailing Cards, Booklets, Notices, Newspaper, Periodical and Trade Journal Advertisements, etc., etc.

I gain *new clients*, chiefly from those who have first seen what I have been doing for old ones.

Made of Swedish Charcoal Steel. What?
Shelby Seamless Steel Tubing.
That's why bicycles built of it cost more and are worth more than those constructed of cheaper tubing.
BICYCLE RIDERS, for their own safety, should demand of the manufacturer or dealer a mount made of "SHELBY TUBING;" accept nothing "just as good and a little cheaper."
BICYCLE DEALERS, large and small, should handle lines constructed of "SHELBY TUBING," Why, do you ask? It helps sell your wheels; It gives you a reputation for handling bicycles of the best construction; It helps you make a fair margin of profit on your investment. Excellent reasons, are they not?
SHELBY STEEL TUBE CO., General Sales Offices: American Trust Building, Cleveland, Ohio.

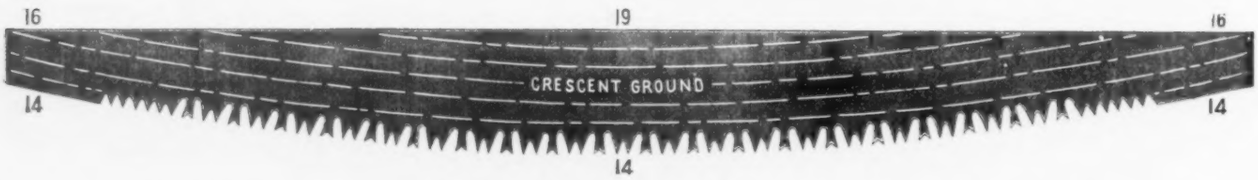
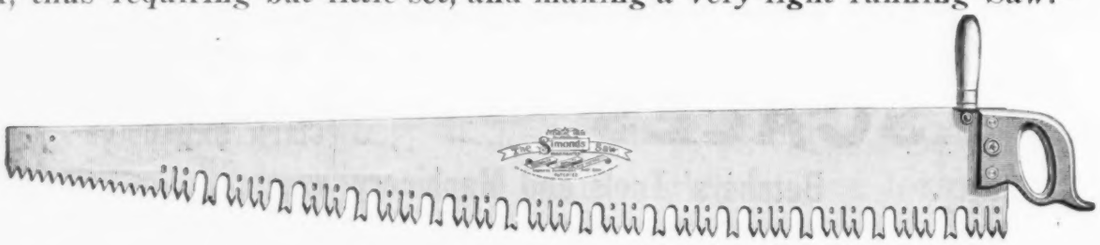
A Simple Story Simply Told.

The *Simonds Crescent Ground* and *One-Man Cross-cut Saws* received a *Special Medal* and *Diploma* at the World's Columbian Exposition, Chicago, 1893.



The Award reads as follows: *"For process of tempering to form, thus giving absolute uniformity of temper, a stiffness that never leaves them, and making possible the use of a high grade of steel. The crescent grinding gives the edge, or teeth, an even gauge or thickness throughout the entire length, increases the back ends of Saw two gauges, and makes the Saw thinner in middle of back, thus requiring but little set, and making a very light running Saw."*



The Simonds Crescent Ground Cross-cut Saw is sold subject to following warranty:

> We (The Simonds M'f'g Co., established 1832) guarantee that the Crescent Ground Saw will cut 10 per cent. more timber, same labor being used, than any other brand of Saws made in the United States.

Besides the above (our ***Special Award*** on Cross-cut Saws at the World's Fair, Chicago, 1893), we have three other Diplomas, and two other medals, making Three medals and Four Diplomas awarded us at that Exposition, covering our goods in general, and many important points of manufacture in particular, operated and controlled by us alone.

The Pick of Jobbers in the United States handle the SIMONDS Crescent-Ground Cross-Cut Saw.

Write Us for name of your nearest Jobber handling our Saw, or order direct of us.

OFFICE OF
THE MECHANIC ARTS HIGH SCHOOL,
BOSTON, November 17, 1898.

BUCK BROTHERS,
Millbury, Mass.

GENTLEMEN:

There are in use in the Mechanic Arts High School the following tools of your make which have been purchased during the last five years:

Two hundred seventeen sets of carving tools, sixteen in a set. }
Three hundred twenty-seven sets of carpenters' chisels, four in a set. } 5,770 Tools.
Ninety sets of wood-turning tools, eleven in a set. }

We have, also a considerable number of special chisels and gouges. These tools were purchased because we believe them to be the best available, and we have had no occasion to regret our choice. No more than six or eight defective tools have been discovered, and these have been promptly replaced by perfect ones without expense to the school.

Your house is to be commended both for the uniform excellence of its products, and its eminently satisfactory business methods.

Very truly yours,
CHARLES W. PARMENTER, PH. D., Head Master.

IMPORTANT DECISION RELATING TO THE

HEINISCH

TRADE-NAME ON SHEARS, TRIMMERS, &C.

The U. S. Circuit Court, Southern District of New York, Judge Townsend, has rendered a decision in the suit of "R. Heinisch's Sons Co. vs. Hermann Boker & Co."

"The Complainant is entitled to an accounting, and to an injunction restraining them from using the names 'Heinisch' or 'H. C. Heinisch' on its Shears, Labels, etc., and otherwise, in any way which will interfere with Complainant's enjoyment of the benefits of its Trade-name."

Referring to the above decision we would respectfully state our determination to protect our rights in the premises and warn all persons against any imitation of our Trade-name.

McIntyre's

Dry Battery Portable Electric Safety Lamp...

This is an Electric Lamp set in a White Enamel Parabolic Reflector, and can be attached to the cap or any part of the clothing by means of a stick-pin attached to reflector and connected to the battery with a flexible cord. The battery is arranged to be carried on a belt or in the pocket. So the user has free use of hands. The current can be turned off when not in use. Dry batteries are used and can be recharged from direct Incandescent Electric Current Charger and full directions go with each Lamp.

IS USED BY THE FOLLOWING: For Watchmen, Miners, Mine and Gas Inspectors, Boiler Shops, Oil and Gas Works and Gas Fitters, City Sewer and Underground Cable Inspectors; Powder Mills and Warehouses where explosive materials are manufactured and stored; exploring cellars and trenches where leaks occur, and investigating pipe connections where it is impossible to carry an oil lamp or candle for fear of explosion—and all parties requiring a safe portable light. The whole outfit is neat and compact.

No. 1 weighs 2 lbs., 1½ C. P. Price complete, $4.00.
For Meter Reading Only.

No. 2 weighs 3 lbs., 4 C. P. Price complete, $6.00.

"Small Talk About Business."

By A. E. RICE.

A Banker's Business Hints for Men and Women.

A bright man, with his wits about him, is often described as "All Business." Being "all business" is knowing how to do the right thing the right way.

Do you want to be "all business?" The book tells. The wrong way wastes money and wastes time. Where is the good of that? The book tells nearly everything that an enterprising business man ought to know. Everything in it is worth knowing.

The book is called "Small Talk About Business." It is full of money-saving talk for old and young, for men and women, for business-like and unbusiness-like people. YOU ought to have it.

Price, 50 cents. 120 Pages. Elegant Cloth Binding.

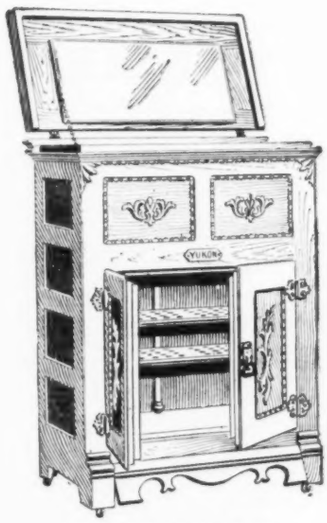
Child's Tray.

The only Child's Tray that fully protects. Fitted closely around body of child, with high projection in front, it gives perfect protection to the child and prevents soiling of table cloth or carpet.

KEEN & HAGERTY MFG. CO., - Baltimore, Md.

Office and Salesroom—16 W. BALTIMORE STREET.

YUKON Refrigerators.



ARTHUR BRITTAN & CO.,
156 Lake Street, - - Chicago,
General Sales Agents.

The Yukon combines all the best points of the best makes with several new features, which makes it the best Refrigerator on the market.

The Yukon is made in two styles, with ***Removable Flues,*** and with the ***entire Ice Chamber Removable.***

We note some of the excellent features of the Yukon:

Thoroughly seasoned ash lumber.
Elegance of finish.
Carved panels.
Swinging and removable base board.
Solid bronze hardware, Roman gold finished.
Zinc lined. Patent casters.
Galvanized iron flues, ice rack and shelves.
The shelves being so constructed that small dishes placed upon them will not tip over.
Patent Trap, connected with waste pipe in bottom of provision chamber, where it is most accessible, both trap and waste pipe being easily removed cleaned and replaced, without a back-breaking process or poking with a stick.
The insulation used is ***Granite Rock Wool*** and Charcoal Sheathing.
Buy the Yukon and you will have the best Refrigerator made as well as an elegant piece of furniture.

MANUFACTURED BY

THE MICHIGAN BARREL CO.
GRAND RAPIDS, MICH.

Sherman Mender Tube.

THE TOLER
Liquid Door Check and Spring.
PERFECTION ATTAINED AT LAST.

Entirely new in style and mechanism, **strong, simple and effective**, giving in results all the best achievements of other checks, together with new and valuable features only to be found in this.

It has a vertical case, with openings only at the top.

It has no plugs or caps screwed to the cylinder ends. It cannot leak. There is no way for the liquid to escape after the Check is applied.

The piston is idle during a greater part of the opening and closing of the door, thus saving the wear on all parts.

It is made of the very best of material throughout.

It works to perfection, closing the door quickly and gently.

It is easily taken apart by anyone; no returning to the factory for anything. This saves time and money. The working of the Check will speak for itself.

Regular finish, Gold Bronze No extra price for Silver Bronze or Dead Black when so ordered. Furnished Plated in Brass, Nickel, Copper or Silver, Plain or Oxidized, at a reasonable extra charge. No extra charge for Brackets where needed.

Manufactured by

THE WARNER . . . SCREEN DOOR CHECK.

An Air Check which is thoroughly **practical** at a price which makes it popular. To be used on doors having spring hinges or a door spring.

Is adjustable and can be used for panel doors 1¼ in. thick or lighter, but intended principally for screen doors.

It is easily put on, as there are **no loose parts** and the directions for putting on are exceedingly simple and easily understood by anyone.

GLIDDEN'S METALLIC REPAIR OUTFIT

The one that has the Hinged Plugs.

THIS is the smallest, neatest, most compact and practical repair outfit ever offered to the public. Complete in a tin box 1½ inches long, 1 inch wide and ¼ inch thick. It will repair a puncture at once, without the use of cement, and any woman or child can use it. The plug is made of metal with a **hinged head, which can be forced into a much smaller opening than one with a stationary head.** Two sizes of plugs are furnished with each kit, which will fit ordinary punctures; also a cutter is furnished, to be used when the puncture is too small to admit the plug.

Directions for use. Place the flat plate of the plug so it will be loose on the key. Screw the key into the plug and insert into the hole, leaving the flat plate on the outside of tire. Draw back the key so that the plug will rest flat on the inside of the tire. Screw the flat plate to plug with wrench (left hand thread), and turn key to right. Remove the key by turning to left, and you have a permanent repair which does not injure the tire or its looks.

DISCOUNT TO THE TRADE, ASK YOUR JOBBER FOR IT.

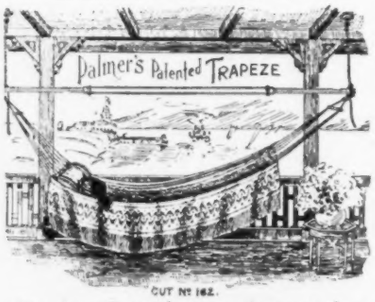
PALMER'S ARAWANA (Patented).

As used with Trapeze Suspension



CUT Nº 162.

The above figure shows an Arawana slung from a Trapeze adjusted to its maximum extension as regards its suspension from the ceiling.

The Trapeze Suspension, as may be seen at a glance, is especially adapted to Veranda use, is adjustable to different sizes of Hammocks within its scope (from 6 ft. 8 in. to 11 ft.) and to giving different degrees of dip and heights of suspension. Every conceivable swinging motion is obtained without effort.

NORTH AMERICAN METALINE CO., 43 Third St., Long Island City, N. Y.

Gentlemen: Your favor of 20th inst. received; in reply are pleased to say that your Metalined Bushings have given us entire satisfaction. We first applied them in 1886 or '87 under very trying conditions, put them in fast running loose pulleys with high tension belt, and they gave perfect satisfaction. Since then, we have extended their use throughout our works, and they have given satisfaction wherever we have placed them. Very truly yours,

JAS. PYLE & SONS.

New "Cold" Process of Galvanizing.

In use for more than two years with best and absolutely satisfactory results. Articles that cannot be galvanized by any other process, such as screws, nuts, cutting instruments, tools of every description, springs, locks, artistic metal articles, can be galvanized in a superior manner by this process. The multitude of articles that can be galvanized is without limit. Uniformly smooth surface is preserved, thickness of coating can be regulated, saving of spelter about 80%, besides many other advantages. *We grant licenses for territory, also shop rights on royalty basis.*

Fulton Engineering & Ship Building Works

We are not responsible for delay or non-fulfillment of contract when caused by strikes, acts of government or other unavoidable causes

San Francisco Sept. 29/93.

Hoyt Metal Co.,
St. Louis, Mo.

Gentlemen:-

Reporting on the merits of the Nickelene Babbitt Metal, we have used a large quantity of it with the most satisfactory results. It has given better satisfaction than any other babbitt metal we have used, including all the standard brands, particularly for electric and marine engine bearings where it is subject to the severest duty.

We will be pleased to give you or others the names of steamers using it, also the names of their engineers and owners to whom any one can write. Without exception we believe, that all will speak favorably of it and from our own experience with it and other metals we decidely recommend it.

Very truly,
FULTON ENGINEERING & SHIP BUILDING WORKS.

Dict. by J. S. Sr. *James Spiers Pres*

YOU WILL SEND US AN ORDER.

HOYT METAL CO..

Nickelene, although very hard, is so tough that it can be hammered to a knife edge.

Nickelene is being used by many in place of Phosphor Bronze.

Nickelene can be melted in an iron ladle or kettle, and at a little higher temperature than that necessary for melting Babbitt Metal, runs freely and makes a good casting.

NICKELENE IS THE BEST BABBITT METAL IN THE WORLD.

WRITE US FOR PRICE.

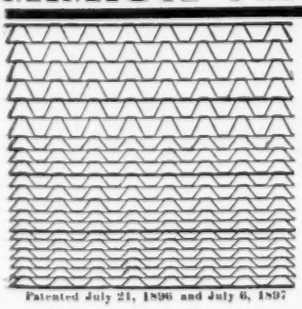
AN "INSIDE" RATCHET

3 in. in Diam.

Goes on wire at any point. Requires no bent pieces of wire, or nails to lock it, as it is a one-piece, self-locking Ratchet. Write for prices. BOWEN CABLE STAY FENCE CO.

BOX 64, NORWALK, OHIO, U. S. A

M.M.S. Poultry FENCING



Patented July 21, 1896 and July 6, 1897

is made of the best number nineteen galvanized steel wire, strengthened by a cable selvage and a cable every foot in the height of the fence.

A Fence, Not a Netting.

Its multitude of horizontal wires gives it strength, makes it easy to erect and keeps it in good shape.

50% Saving to the User.

It requires but few posts and no top or bottom rail. Only genuine when **every roll contains the famous M. M. S. trade mark.** Descriptive matter free.

DIRECTORY

TO THE

Iron and Steel Works

of the United States for 1898

Thoroughly ...Revised. *400 Pages, ...Cloth Bound*

Price, Seven Dollars.

This, the 14th Edition, includes a complete Directory to many leading industries which are large consumers of Iron and Steel, and embraces more complete details of all the Iron and Steel Works of the United States, and of industries which are large consumers of Iron and Steel, than any preceding edition. Among the many new features are complete lists of the Rail Mills, Structural Mills, Steel Casting Works, Bolt, Nut and Rivet Works, Chain Works, Seamless Tube Works, and Riveted Pipe Works. The lists of Plate and Sheet Mills and of Tinplate and Stamping Works are much more complete than in previous editions. The names and location of all the works described are given in alphabetical order, followed by a description of their character, capacity and products, with the names of the principal officers, etc., including the names of selling agents.

It contains a complete list of

Blast Furnaces,	Iron and Steel Shipbuilders,
Rolling Mills,	Horse-Nail Works,
Bessemer Steel Works,	Locomotive "
Open-Hearth "	Malleable Iron "
Crucible "	Cast-Iron Pipe "
Plate and Sheet Mills,	Cast-Iron Soil and Plumbers' Pipe Works
Rail Mills,	Wrought Iron, Wrought Steel and Riveted Pipe Works,
Structural Mills,	Seamless Tube Works
Steel Casting Works,	Chain Works,
Cut Nail "	Bolt, Nut and Rivet Works,
Tinplate "	Car-Axle Works,
Stamping "	Car-Wheel Works,
Forges and Bloomaries,	
Wire-Rod & Wire Mills,	
Wire-Nail Works,	
Iron and Steel Bridge-builders,	

and Carbuilders in the United States.

Also a List of the Iron and Steel Works in Canada and Mexico.

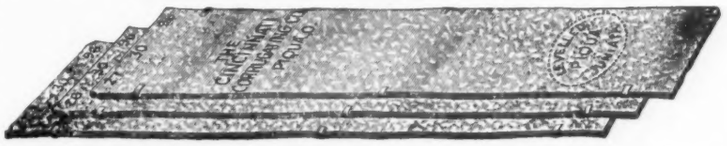
IRON and STEEL SHEETS

(BLACK OR GALVANIZED)



Every maker guarantees the quality of his goods—otherwise it would be impossible for him to sell again. We have two inspectors carefully examine each side of every Galvanized Sheet we make. Only perfect sheets are shipped. This is far more important to buyers than to have the avail of a guarantee. Of course we guarantee our sheets, as nothing but perfect sheets are shipped.

THE CINCINNATI CORRUGATING CO., · Box 312, Piqua, O.

The U. S. Wire Mat...

The cut shows a 50 ft. roll of our Wire Matting, from which the dealer can cut any length mat to suit his customer.....

To clean your feet on a U. S. Wire Mat, all you have to do is—walk on it.
To clean the mat, all you have to do is—pick it up.

It does not curl up at the corners.
It does not hold the dirt.
It rolls up like a carpet.
It is made in all widths.

Write for our Booklet.

Be Progressive

and use Aluminum Coated Sheet Steel.

Superior in all respects to galvanized iron. It contains all its merits, with none of its defects. It is united more firmly to the base, consequently does not peel like galvanized iron. It can be heated to a red heat without destroying the coating. Sulphurous gases, brine, salt and acids do not affect it as readily as galvanized. It can be soldered with common solder. It is the only metal that will hold kerosene, gasoline and all other carbon oils satisfactorily. Give it a trial and be convinced. Prices and samples furnished on application.

Manufactured by the STEEL AND IRON METAL COATING CO., WEST CHICAGO, ILL.

GOOD & WATERMAN, 316 Security Bldg., St. Louis, Southwestern Selling Agents.

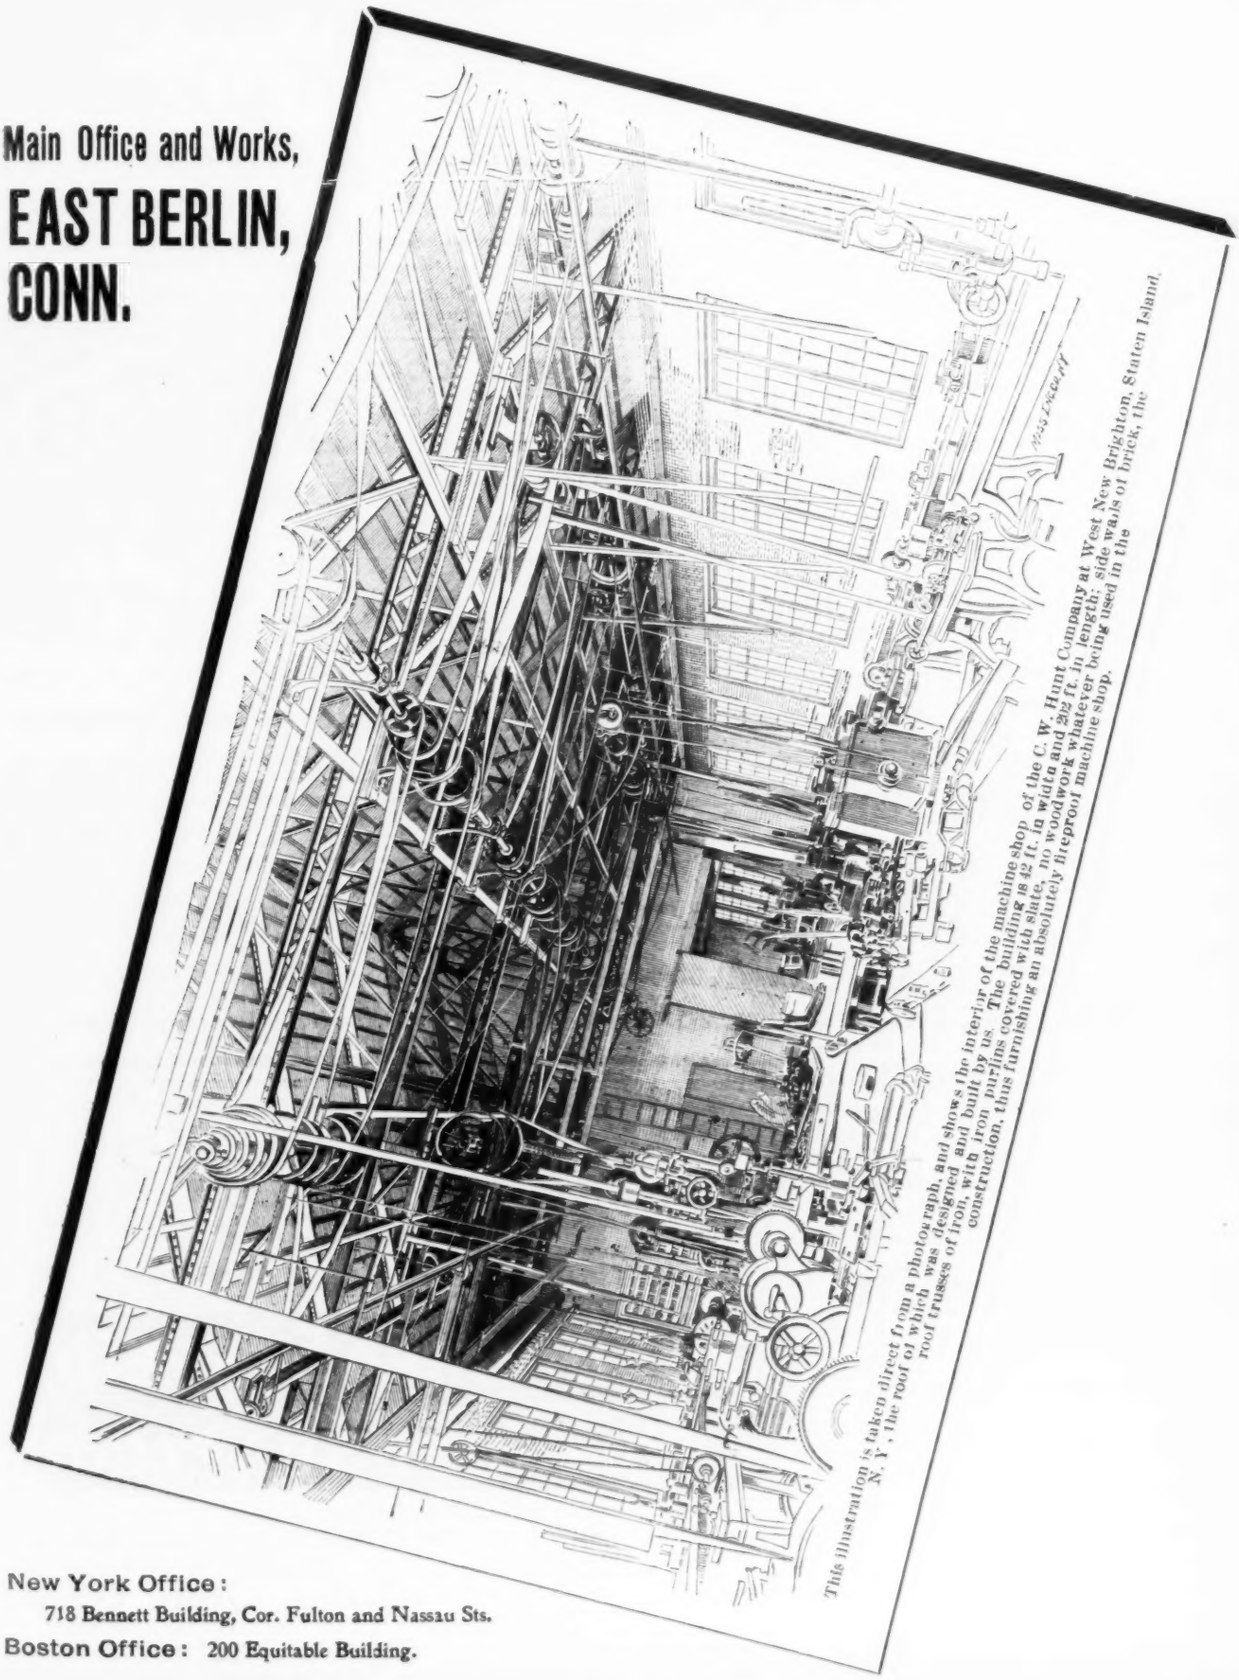
THE BERLIN IRON BRIDGE CO.,

Engineers, Architects and Builders

of Steel Structures of All Kinds.

Main Office and Works,

EAST BERLIN, CONN.



This illustration is taken direct from a photograph, and shows the interior of the machine shop of the C. W. Hunt Company at West New Brighton, Staten Island, N. Y., the roof of which was designed and built by us. The building is 42 ft. in width and 242 ft. in length; side walls of brick, the roof trusses of iron, with iron purlins covered with slate, no woodwork whatever being used in the construction, thus furnishing an absolutely fireproof machine shop.

New York Office:
718 Bennett Building, Cor. Fulton and Nassau Sts.

THE TRENTON MALLEABLE IRON CO., - Trenton, N. J.

ATLAS METAL.

TENSILE 50,000 POUNDS.

Atlas Metal is defined by Prof. Charles James, the well-known Steel Expert, as "A New Commercial Product, standing between Iron and Steel, and uniting in itself the best characteristics of both."

ITS CHIEF POINTS ARE

GREAT STRENGTH. GREAT WEAR. UNIFORMITY. EASILY MACHINED.

HOMOGENEOUS.—Atlas Metal is not surface treated—the castings can be made of any weight, size or thickness, and the metal will be of uniform structure and entirely homogeneous throughout.

CORRESPONDENCE SOLICITED.

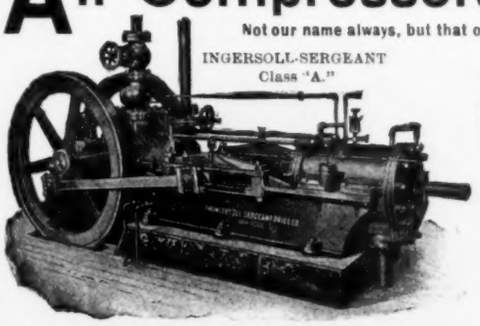
THE NORWALK IRON WORKS CO., SOUTH NORWALK, CONN., MAKERS OF AIR AND GAS COMPRESSORS FOR ANY VOLUME AND FOR ANY PRESSURE.

Air Compressors Catalogue No. 32.

Not our name always, but that of others to show what can be done.



The Passaic Rolling Mill, Paterson, N. J., with a monthly output of 5,000 tons of structural steel, use 40 cylinder hoists, 12 riveters, 5 drills and reamers, 2 chipping tools and other apparatus, all operated by compressed air from an Ingersoll-Sergeant Class "A" Straight Line Piston Inlet Air Compressor. The plan of distribution of air power necessitated careful engineering and close investigation of the merits of Air Compressors to secure good results. It is the high-class machine, built rigidly, embodying every detail of scientific construction, that wins in a test like this.

VULCANIZED FIBRE CO., Wilmington, Del.

WE HAVE HEARD IT SAID

(By those who do not know) that our COCHRANE HEATERS and COCHRANE SEPARATORS are high priced. NOT SO—anything but high priced. May be you got the idea because we keep telling you how good they are—what good things we put in them. Like well built mince pies they have a first class casing and "INSIDES" which make them worth trying.

We don t make the cheapest heater on the market—can do it, but won't. Somebody has to decide what should go in a heater. Having 13 or 14 years of experience right in this line—we've decided—and there's no skimping.

No other heater can give hotter water and better purification—is more durable or easier to clean.

Did you ever clean a heater? Not an easy matter unless it's a "COCHRANE."

Shall be pleased to hear from you.

LIQUID BRAZING.

The economies and advantages of liquid brazing are not confined to bicycle manufacturers, although they are the ones that have developed it and demonstrated its great advantage and economy over the old-time fire brazing.

One bicycle manufacturer estimates that he is saving twenty dollars per day every day he runs the new system, besides requiring fewer workmen and less fuel.

A descriptive pamphlet will be sent to all who are interested.

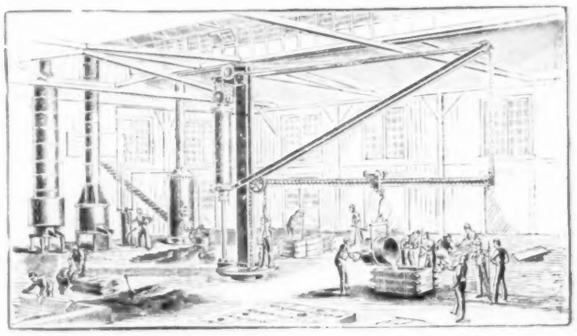
ALL WE ASK IS A CHANCE

And the Ridgway Crane in your own works will prove to you, right before your very eyes, that it is the wonderful Money Making machine we keep saying it is.

Of course you are skeptical Been lied to so much you do not believe hardly anything any more and least of all any fellow who comes along with such a commonplace machine as a crane—and a swing crane at that!—claiming to make such a remarkable saving as 50 per cent. more work for same wages in a Foundry No, sir-ee, they don't catch you, do they? You're too cute for that?

Well, there are others. We have been for a long while placing Ridgway Cranes in the best shops in the land and have always asked people to investigate the Ridgway Crane for themselves. We don't know what more we can do than this. We don't want any one to take our word for it when they can ask people who use the cranes. Of course our old offer always holds good to supply any concern the Ridgway Crane, and if it don't make money at once as soon as started it can be sent back to us.

We want people to know the Ridgway Crane When they know it they always buy it and want it quick too.



5 ton Steam-Hydraulic Crane in a Foundry.

HYDRAULIC AIR HOISTS.

Oil in the piston rod makes the hydraulic, while the air under the piston does the pushing up. Only now with our oil governing rig she can never go up "che bang" when somebody is careless or the load slips.

We have to use good big rods to hold the oil, and the rods are so strong there are no bent piston rods in the Ridgway Hoists. That is sort of a by-product of the Ridgway Hoist, but a mighty good one, as every hoist user knows.

Don't buy Air hoists until you know the Ridgway. We don't think you will want any other sort Cheap John purchasing agents who are paid to hunt for cheap stuff don't buy Ridgway Air Hoists. They cost more than ordinary air hoists to build them, but they save the difference very quickly. Get one and try it for yourself and we don't think you will buy any other sort.

ELEVATORS

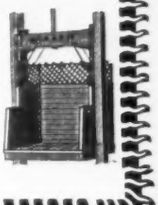
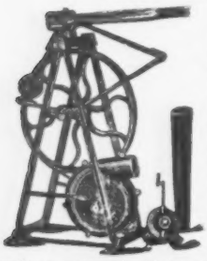
FOR WAREHOUSE, FACTORY, STORE OR RESIDENCE. Write for Book 24, "It's elevatin'."



WARNER ELEVATOR MFG CO., Cincinnati, Ohio.

The New Champion 1898 ANGLE STEEL Blacksmith Blower.

Made with Lever only or with both Lever and Crank.



The New Champion 1898 Angle Steel Blacksmith Blower frame is constructed on new principles, getting entirely away from the old and faulty construction of spreading the four ends at the lower end or base of the frame where stiffness and firmness is most essential.

The New Champion Angle Steel Frame is entirely reversed; it has its bent and stiff parts of the angle steel for its base, and the "four" ends are stamped together at the top or upper end of the frame, connecting all the ends at the smallest possible centre, with the lever knuckle joint on top of the "four" ends, giving a direct downward motion and placing the strain of the lever motion equal on the four uprights, thus forming a binding truss, giving strength and rigidness that was never thought possible to obtain on a blower frame heretofore, also taking away entirely the usual twisting of the frame where the lever knuckle joint is placed in the corner, and the entire strain of the lever motion continually working on one upright.

Fan 16 inches and Fly Wheel 28 inches in diameter—has the capacity of a 50-inch bellows, with our Patent Tuyere Iron and Piping complete, with Lever only.....$15.00

With Lever and Crank combined..... 17.50

Write for catalogue and discounts on our entire line of Blowers, Forges, Blacksmiths' Drills, Tire Benders and Shrinkers, Screw Plates &c.

GOOD TIMES

are once more with us and to handle business quickly and economically we must be up-to-date. Wire in its varied forms enters largely into modern manufacture and its field of usefulness increases day by day. We have made Wire Straightening and Cutting Machinery a specialty for 25 years—build it in all sizes and for all classes of work. Our intimate relations with manufacturers enable us to know their needs, and last year in addition to our trade in the United States we shipped over 40 tons of Wire Straightening and Cutting Machinery to Europe. If you have only a moderate amount of work our machines will save you money. If you have a large amount—well, the largest concerns are using our machinery. Our prices are low. We build in large lots. We try to keep abreast of the times. Tell us what you need and let us send you a catalogue and quote prices.

Barnes' New Improved Bench Drill.

This tool speeds from 0 to 1,600 revolutions per minute without stopping or shifting belts. Shaking of spindle and breakage of drills (so common in high speed drills) is entirely obviated by the friction disk movement. The spindle has an end-thrust ball bearing and will not heat on high speeds. An accurate and rapid working drill.

Send for Catalogue.

Mechanical Operation

WITHOUT NOISE

Means the application of power without waste, indicating a state of perfection in machinery that has not yet been attained. But the use of perfectly meshing cut gears is a long step in the right direction, and is an economical move worth investigating.

Bevel gears cut theoretically correct.

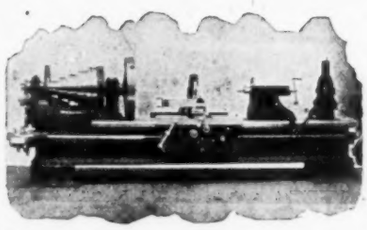
No. 2 Automatic Power Screw Press for Broaching Holes of Irregular Shapes.



It's So Simple.

Sizes 14 to 42 inch swing. Beds in Even Lengths
You just slide the gear on the main-shaft, at the left, opposite the thread desired, as shown on the index plate; "press the button" into the hole shown by the hole index, and there you are! Any one of 40 threads; any one of 40 different feeds.

All kinds of machinery, new and second-hand, at very reasonable prices.

Locations for Industries.

The Chicago, Milwaukee and St. Paul Railway Company has all its territory districted in relation to resources, adaptability and advantages for manufacturing, and seeks to secure manufacturing plants and industries where the command of raw material, markets and surroundings will ensure their permanent success.

A number of new factories and industries have been induced to locate—largely through the instrumentality of this company—at points along its lines.

The trend of manufacturing is Westward. Confidential inquiries are treated as such. The information furnished a particular industry is reliable.

Address

LUIS JACKSON,
Industrial Commissioner, C., M. & St. P. R'y,
Old Colony Building, Chicago, Ill.

FOR SALE.

About 1,500,000 lbs. Steel Plates,

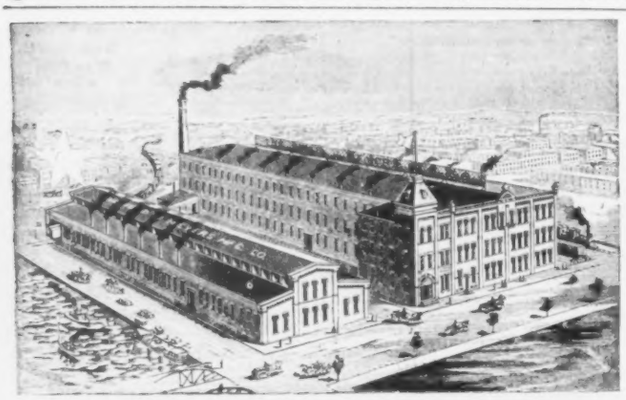
GENERAL OFFICES:

Marquette Building, CHICAGO, ILL.



★ THIS BUILDING

92 x 225 feet FOR SALE, LEASE or RENT, cheap. Formerly used as Arch. Iron Dept. of our business. Is splendidly adapted for Foundry, Machine Shop or any manufacturing enterprise; fitted with overhead crane, two lines of shafting, railroad track to door, well lighted. Ample power can be had. A splendid location and opportunity for any manufacturer. Address

THE FRED. J. MEYERS MFG. CO.,

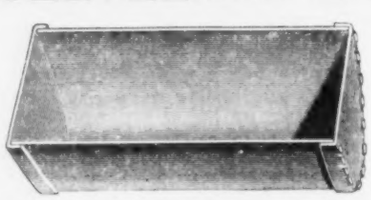
(37 Minutes from Cincinnati, O.) HAMILTON, O.

There are lots of cokes in the market that would be considered first-class if it wasn't for the extra one per cent. of sulphur which they contain.

That small amount of sulphur can play havoc with castings, and there is no use of running any risk when you can get our coke.

VINTON COLLIERY CO.,
Real Estate Trust Building,
Philadelphia, Pa.

CLEVELAND ELEVATOR BUCKET CO.



Office and Factory,
225 ST. CLAIR STREET,
CLEVELAND, O., - U. S. A.

make Circulars, Folders, Price-Lists, Catalogues Trade Primers Circular Letters, Announcements, Mailing Cards Booklets, Notices, Newspaper, Periodical and Trade Journal Advertisements, etc., etc., and I make these things as **UTTERLY SELFISH** as possible.

Really "Selfish" advertising is the kind that sets **YOU** apart by yourself in a flock of *one*. It is distinctive and anti-rut alike in its matter and manner, never "funny," but ever peculiar, and with a flavor distinctly its own.

I desire correspondence from advertisers who claim to know a good thing when they see it. From readers of this, inclined to be somewhat skeptical, I especially desire to hear.

I'm quite a skeptic myself.

I gain *new clients*, chiefly from those who have first seen what I have been doing for old ones.

If you desire to see samples of my "doings," please state what you wish sent.

FRANCIS I. MAULE,

CARPENTRY AND BUILDING
Series No. 2.
Modern American Dwellings
With Constructive Details.

The Most Elaborate and Complete Volume of Plans Ever Brought Out for the Use of Architects, Builders and Home Seekers.
BY NUMEROUS ARCHITECTS.
A selection of thirty-seven designs of artistic suburban dwellings erected in various sections of the country, at a cost ranging from $2,000 to $5,000, and embracing floor plans, elevations and constructive details showing interior and exterior finish, all drawn to a convenient scale, together with brief extracts from the specifications.
Those who contemplate building a home will find this volume of great value. In connection with each design is given the necessary floor plans, elevations and constructive details as will enable any practical builder to execute the work. The plans are diversified in both the interior arrangement and external appearance, and will afford to persons of various requirements an opportunity to select a home suited to their taste and convenience.
33 Half-Tone Engravings. 127 Full Page Plates of Elevations, Floor Plans and Constructive Details. 40 Pages of Descriptive Text. Size 9 x 13 in. (oblong), Handsomely bound in cloth. PRICE $2.00.

DURING the past year we have perfected great improvements on our Star Hack Saw Blades, and are now filling orders with a quality which proves, by a very thorough test, to do 50% more cutting and to be 100% stronger than any which we formerly made.

The demand for these goods has steadily increased from the beginning, and we anticipate a much larger sale as soon as the new saws come fully into use. Though the value has doubled the price remains the same.

IMPORTANT DECISION RELATING TO THE

HEINISCH

TRADE-NAME ON SHEARS, TRIMMERS, &C.

The U. S. Circuit Court, Southern District of New York, Judge Townsend, has rendered a decision in the suit of "R. Heinisch's Sons Co. vs. Hermann Boker & Co."

"The Complainant is entitled to an accounting, and to an injunction restraining them from using the names 'Heinisch' or 'H. C. Heinisch' on its Shears, Labels, etc., and otherwise, in any way which will interfere with Complainant's enjoyment of the benefits of its Trade-name."

Referring to the above decision we would respectfully state our determination to protect our rights in the premises and warn all persons against any imitation of our Trade-name.

ELY'S DANDY No. 1.
This Poke is the same pattern and has the same principle of operation as the Akron Poke.

ELY'S DANDY No. 2.
This Poke is the same pattern and has the same principle of operation as the "Success" Poke.

ELY'S DANDY No. 3.
The lightest, easiest to adjust and most simple Double Prong Poke made. Nothing to get out of order. Furnished with strap or snap.

Best Poke

... ON EARTH.

500 000 NOW IN USE.

Points of Superiority.

1st—It's ten times stronger than any wood poke.

2d—The weather does not affect it.

3d—Does not wear the mane or make the neck sore.

4th—The brail is always in front and does not come in contact with the legs and interfering in feeding.

5th—If the brail breaks it can be replaced in five minutes.

KRICK'S METALLIC ADJUSTABLE POKE.

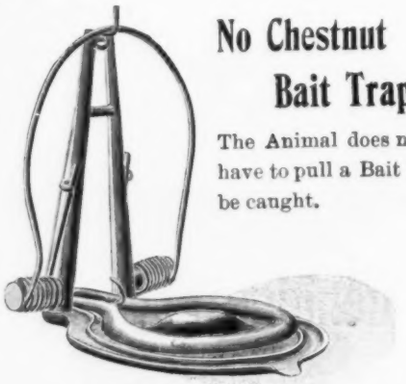
3½ feet long.

Dandy Rattan Rug and Clothes Whip.

No. 1. No. 2. No. 3.

RATTAN RUG BEATER.



No Chestnut Bait Trap!

The Animal does not have to pull a Bait to be caught.

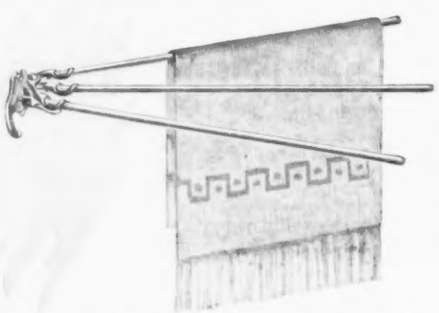
KRICK'S DANDY TRAP.

IT IS A PLATFORM TRAP.

When set at the hole or in runways the animal cannot pass without being caught. THE TOOTHED BASE gives it better holding properties than any other trap. Being made of malleable iron it cannot warp, split or rot as other bail traps do. The strike wire can be made stronger at any time by throwing ends of wires out of seats and bending them short backwards near the coils. The animal can be dumped without touching with the hands by throwing ends of bail wire out of seats.

CAMP STOOL.
Seats made of 10 ounce Duck. Made from Hard Wood, seat 14 x 12 inches.

Ely's Dandy Towel Rack.



Three arms 18 in. long. Nickel Plated Castings.

Ely's Dandy Hay Knife.

This article needs but little talk, as it is not new to the trade or to the user.

It has been on the market for a number of years. We know that one man can do more and easier with this knife than two can do with any other.

It is made of malleable iron and the best steel section knives. We are putting it on the market at a price that any one can afford to have one. Any dealer wanting an article that he can recommend to his friend or customer and know that he is doing him a favor this is the article.

If your Jobber does not keep them, write us. Manufactured by

THEO. J. ELY MFG. CO., GIRARD, PA., U. S. A.

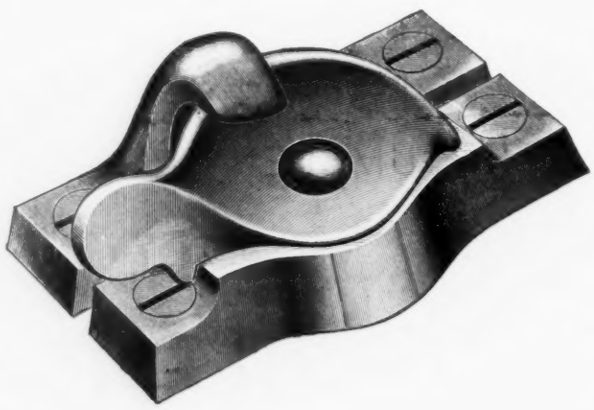
FITCH SASH LOCKS.

(Patented July 21, 1896. Aug. 24, 1897.)

By reason of their conspicuous merit, have won a recognized place among the staples of Builders' Hardware.

Repeated endorsements by representative Architects and Builders has made them a profitable acquisition to the stocks of a constantly increasing number of the largest houses in the Trade.



A Sash Lock to be "good for anything" must securely lock a window. The Fitch Sash Locks do much more: Adjust the meeting rails—taking up the sag; stop all rattle—automatically drawing the two sashes together; and prevent disfigurement of the top sash—keeping the window "locked or unlocked." Strong, well made and durable. Styles "ornamental" and "plain"—all finishes.

Give them a trial. Small and large sizes in all finishes. Catalogue and price on application. Sample Free.

TAINTOR
POSITIVE SAW SET.

THIS IS NOT THE CHEAPEST SAW SET IN THE MARKET—

IT IS THE BEST.

We have sent them all over the country on approval and never had one returned, but get numerous letters like the following:

TAINTOR MFG. CO., N. Y. ALANSON, MICH., Aug. 1, 1898.

Enclosed please find a P. O. money order for $1.00 for Saw Set sent me on trial.
You can say for me, if you wish, it is the only saw set that will set a saw perfect, and is the only one that will not leave a saw in a circle after setting. If I could not get another, a five-dollar bill would not buy it. I have worked at carpenter work for 26 years steady, and have used all kinds of sets, but the Taintor is the only perfect Set made.

I remain, respectfully yours, JOSEPH W. WEYMOUTH.

Order from your Jobber; if he cannot supply you, write to

Iron and Steel.

This is the only complete work on the subject.

It gives practical suggestions in regard to the arrangement of the store—office, shelving, counters, racks, bins, sampling, window display, etc., etc.

It describes the practice of Hardware merchants in all parts of the country, and many different methods of accommodating and displaying leading goods.

Illustrations and detailed descriptions with measurements are given, so that Hardware merchants can readily adopt the methods described in the volume.

This book with its mass of practical and detailed information will be of great service—

To progressive Hardwaremen who are desirous of improving their stores;

To those who are intending to open new stores;

To those who want information as to the best methods of displaying and accommodating any given class of goods;

To those who wish to know how other merchants arrange their stores;

To those who are interested in the question of window display;

To those who are extending their business in any direction;

To those who desire practical suggestions in regard to the arrangement and sale of the different Hardware articles.

DAVID WILLIAMS COMPANY, Publishers, 232-238 William St., N. Y.

One of our New Patterns.

It has a removable ice chamber but with objectionable features obviated, and combined with that wonderful "MAINE" Ice Grate, sliding shelves, swing bass, and new bronze lever locks.

White - Mountain - Refrigerators.

KNOWN ALL OVER THE WORLD.

Our elegant 1899 catalogue now ready.

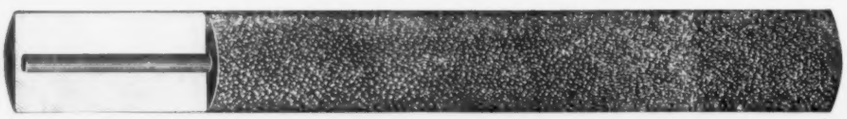
One of the finest Refrigerator factories in the world.

Our factory is never idle. We have not shut down since 1874.

A perfect and complete Refrigerator is manufactured every six minutes.

Over half a million people are using "White Mountain" Refrigerators. Everyone satisfied.

Branch Offices: *Boston, New York City, Columbus, Minneapolis, Denver San Francisco, Dallas, Tex., and St. John, N. B.*



(SECTIONAL VIEW.)

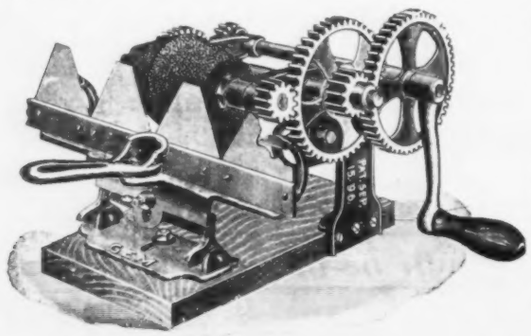
"THE GEM" Corundum Scythe Stone

THIS Stone has a steel bar center and you cannot break it. It will last ten times as long as a natural stone and cut faster. It is water-proof, is made of corundum, and by an improved process of manufacture we can now sell it at a price equal to the natural stone. Write for sample and discounts.

(SECTIONAL VIEW.)

"THE DIAMOND" Corundum Steel.

THIS Steel has almost superseded the metal steel for sharpening carving and kitchen knives. Why? Because it will sharpen a knife quicker and better and its cost is less than one-half of the metal steel. It is water-proof, has a steel extending its entire length, making it very strong. Every hardware dealer should carry them. Write for sample and discounts



"THE GEM" AUTOMATIC COMBINATION SICKLE AND TOOL GRINDER. WITH SAW GUMMING ATTACHMENT.

Third Season. 43,493 In Actual Use. Why?

Because it is the only one that grinds automatically and perfectly; it grinds faster than any other machine; it cannot draw the temper of knives; it grinds out nicks; any one can operate it alone; it is the only machine to quickly and perfectly sharpen all kinds of farm tools; it will grind ledger plates, dics, harrows, cultivator teeth, plow shares, etc., also gum a saw as quick as any power machine. The only sickle grinder combining all these points.

Write for prices, discounts and territory.

JUST PUBLISHED.

A Manual of Practical Methods of Repairing Bicycles.

By S. D. V. Burr.

Fourth Edition, Revised and Enlarged.

Cloth Bound. 208 Pages. 205 Illustrations

THE BICYCLE is treated as a machine composed of many parts, each of which may be damaged to a greater or less extent. Each injury to each part is discussed fully, and the best methods of making the necessary repairs are explained thoroughly. The treatment of assembled parts, in such operations as brazing, nickel plating, enameling and the like, is described in detail.

Almost every topic is illustrated with one or more original engravings.

The book deals with the simplest and most useful appliances for repairing. It is in every way practical. It is recommended not only to manufacturers of bicycles, but more particularly to all those who handle bicycles, whether as dealers or repairers.

Price, Post-paid, One Dollar.

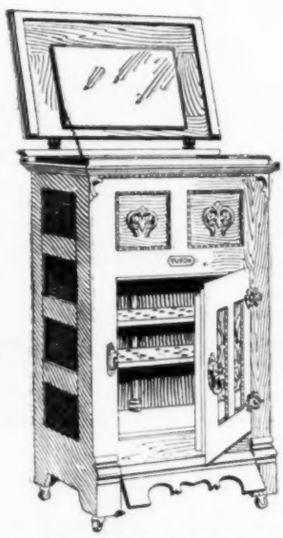
YUKON Refrigerators.



ARTHUR BRITTAN & CO.,
156 Lake Street, - - Chicago,
General Sales Agents.

The Yukon combines all the best points of the best makes with several new features, which makes it the best Refrigerator on the market.

The Yukon is made in two styles, with ***Removable Flues***, and with the ***entire Ice Chamber Removable.***

We note some of the excellent features of the Yukon:

Thoroughly seasoned ash lumber.
Elegance of finish.
Carved panels.
Swinging and removable base board.
Solid bronze hardware, Roman gold finished.
Zinc lined. Patent casters.
Galvanized iron flues, ice rack and shelves.

The shelves being so constructed that small dishes placed upon them will not tip over.

Patent Trap, connected with waste pipe in bottom of provision chamber, where it is most accessible, both trap and waste pipe being easily removed, cleaned and replaced, without a back-breaking process or poking with a stick.

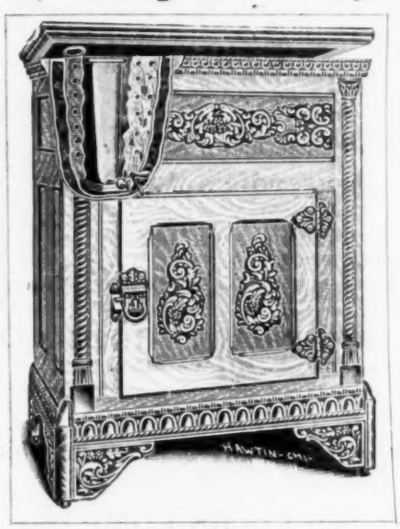
The insulation used is ***Granite Rock Wool*** and Charcoal Sheathing.

Buy the Yukon and you will have the best Refrigerator made as well as an elegant piece of furniture.

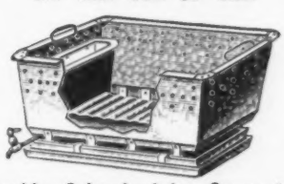
MANUFACTURED BY

THE MICHIGAN BARREL CO.
GRAND RAPIDS, MICH.

The Gurney can be kept absolutely pure and clean



BY THE USE OF THE



Removable Galvanized Ice Compartment.

The Gurney Leads, Others Follow.

All users testify to the GURNEY'S many points of superiority.

The trade took to the GURNEY as criterion for style and finish.

Manufacturers testify to the GURNEY'S right of leadership by imitating the GURNEY style of construction.

Buy the Gurney Patent Refrigerator. It costs no more than imitations claimed to be "*Made like the Gurney.*"

THE TOLER

Liquid Door Check and Spring.

PERFECTION ATTAINED AT LAST.

Entirely new in style and mechanism, **strong simple and effective**, giving in results all the best achievements of other checks, together with new and valuable features only to be found in this.

It has a vertical case, with openings only at the top.

It has no plugs or caps screwed to the cylinder ends. It cannot leak. There is no way for the liquid to escape after the Check is applied.

The piston is idle during a greater part of the opening and closing of the door, thus saving the wear on all parts.

It is made of the very best of material through out.

It works to perfection, closing the door quickly and gently.

It is easily taken apart by anyone; no returning to the factory for anything. This saves time and money. The working of the Check will speak for itself.

Regular finish, Gold Bronze No extra price for Silver Bronze or Dead Black when so ordered. Furnished Plated in Brass, Nickel, Copper or Silver, Plain or Oxidized, at a reasonable extra charge. No extra charge for Brackets where needed.

GLIDDEN'S METALLIC REPAIR OUTFIT

The one that has the Hinged Plugs.

THIS is the smallest, neatest, most compact and practical repair outfit ever offered to the public. Complete in a tin box 1⅛ inches long, 1 inch wide and ¼ inch thick. It will repair a puncture at once, without the use of cement, and any woman or child can use it. The plug is made of metal with a **hinged head, which can be forced into a much smaller opening than one with a stationary head.** Two sizes of plugs are furnished with each kit, which will fit ordinary punctures; also a cutter is furnished, to be used when the puncture is too small to admit the plug.

Directions for use. Place the flat plate of the plug so it will be loose on the key. Screw the key into the plug and insert into the hole, leaving the flat plate on the outside of tire. Draw back the key so that the plug will rest flat on the inside of the tire. Screw the flat plate to plug with wrench (left hand thread), and turn key to right. Remove the key by turning to left, and you have a permanent repair which does not injure the tire or its looks.

DISCOUNT TO THE TRADE, ASK YOUR JOBBER FOR IT.

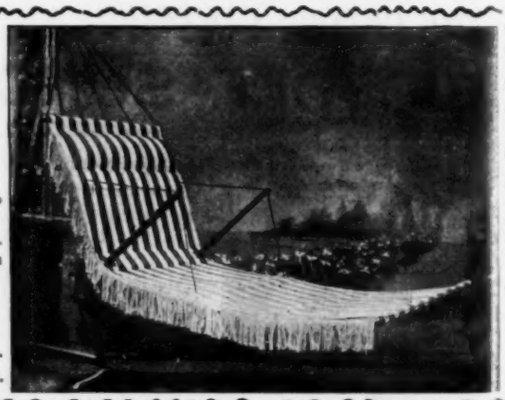
Hann Automatic" Grass Catchers.



1041 MILES IN TEN HOURS.

With each returning season we show something new and desirable in bicycle construction.

This season finds us with more good things than ever.

One of these good things is the *Burwell Ball and Roller Bearing.*

Examine the illustration—notice particularly that the little steel roller between the balls transfers the motion without interruption and the balls cannot grind together as in ordinary bearings.

CLEVELAND BICYCLES

Are tested in every detail before being placed on the market.

We have been running the spindles of our cup and cone grinding machines mounted in Burwell Ball and Roller Bearings at a speed of 35,000 turns per minute, 10 hours per day for many weeks and the bearings are *RIGHT.*

The circumferential travel of these spindles is *1041 Miles in Ten Hours*—a greater test for endurance than the bearing would be subjected to when used in a bicycle for an ordinary lifetime.

Ordinary bearings under the same conditions cannot be run at more speed than 12,000 turns per minute.

There is nothing "ordinary" about Cleveland Bicycles. Every piece of material and every hour of labor is the best money can buy.

We cater to a trade that wants the best and knows the best. Send for catalog.

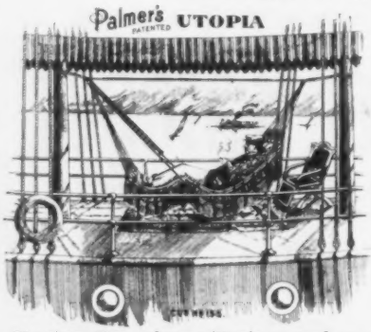
I. E. PALMER, Sole Manufacturer,
MIDDLETOWN, CONN., U. S. A.

New York Store, 62 White Street.



The above Figure shows a Utopia as used on a vessel or yacht deck.

LARGEST VARIETY OF COLORS AND STYLES.

PALMER'S ARAWANA (Patented).
As used with Trapeze Suspension.

CUT No 182.

The above figure shows an Arawana slung from a Trapeze adjusted to its maximum extension as regards its suspension from the ceiling.
The Trapeze Suspension, as may be seen at a glance, is especially adapted to Veranda use, is adjustable to different sizes of Hammocks within its scope (from 6 ft. 3 in. to 11 ft.) and to giving different degrees of dip and heights of suspension. Every conceivable swinging motion is obtained without effort.

Illustrated Catalog on application.

COVERT CARRIAGE and WAGON JACKS.

No. 475.

THE COVERT STEEL CARRIAGE JACK weighs six pounds and will lift 1,000 pounds.

The step is leather covered, thus effectually preventing the metal coming in contact with the axle and marring the paint. The step can be readily adjusted to the height of any axle. It has a direct perpendicular lift, without any horizontal or oscillating movement so objectionable in other Jacks.

COVERT STEEL WAGON JACK is made for heavy work; weighs ten pounds and will lift 2,000 pounds.

For Sale by Jobbers at Manufacturers' Prices.

COVERT MFG CO., West Troy, N. Y.

Shuster, F. B. Co., New Haven, Conn.

Wire Mats.
U. S. Wire Mat Co., Decatur, Ill.

Wire Nails.
American Steel & Wire Co , Chicago, Ill.
Milwaukee Tack Co., Milwaukee, Wis.
Pittsburgh Wire Co., Pittsburgh, Pa.
Taunton Wire Nail Co., Taunton, Mass.
Townsend, C. C. & E. P., New Brighton.
Whitney, A. R. & Co., 29 Broadway, N. Y.

Wire Nail Machinery.
Alexander & McLaughlin, Erie, Pa.
Bates Machine Co., Joliet, Ill.
Miller, H. J., Bridgewater, Mass.
National Machinery Co., Tiffin, Ohio.

Wire Parts.
Jenkinson, R. C. & Co., Newark, N. J.

Wire Rods, Steel.
American Steel & Wire Co., Chicago, Ill.
Pittsburgh Wire Co., Pittsburgh, Pa.
Washburn & Moen Mfg. Co., Worcester.
Whitney, A. R. & Co., 29 B'way, N. Y.
Wolff, R. H. & Co., Ltd., 118th Street and Harlem River, N. Y.

Wire Rope, Iron and Steel.
Broderick & Bascom Rope Co., St. Louis.
Hazard Mfg. Co., Wilkesbarre, Pa
A. Leschen & Sons Rope Co., St. Louis.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester

Wire Rope Clip.
Cincinnati Railway Supply Co., Cincinnati, O.

Wire, Spool.
Malin & Co., Cleveland, O.

Wire Straightening and Cutting Machinery.
Shuster, F. B. Co., New Haven, Conn.

Wood Screw Machinery.
Cook, Asa S. & Co., Hartford, Ct.

Wood Working Machinery
Seneca Falls Mfg. Co., Seneca Falls, N. Y.

Wrenches.
Bonney Vise & Tool Co., Phila., Pa.
Coes Wrench Co., Worcester, Mass.
Hungerford, U. T., Brass & Copper Co., 121 Worth St., N. Y.
Keystone Drop Forge Co., Phila., Pa.
Peck, Stow & Wilcox Co., 27 Murray St., N. Y.
Star Mfg. Co., Carpentersville, Ill
Tower & Lyon, 95 Chambers St., N. Y.
Williams, J. H. & Co., Brooklyn, N. Y.

Zinc Nails.
Phillips E. & Sons, So. Hanover, Mass.

Zinc Plates.
Phillips, E. & Sons, So. Hanover, Mass.

NORTH AMERICAN METALINE CO., 43 Third St., Long Island City, N. Y.

Gentlemen: Your favor of 24th inst. received; in reply are pleased to say that your Metalined Bushings have given us entire satisfaction. We first applied them in 1886 or '87 under very trying conditions, put them in fast running loose pulleys with high tension belt, and they gave perfect satisfaction. Since then, we have extended their use throughout our works, and they have given satisfaction wherever we have placed them. Very truly yours,

JAS. PYLE & SONS.

New "Cold" Process of Galvanizing.

In use for more than two years with best and absolutely satisfactory results. Articles that cannot be galvanized by any other process, such as screws, nuts, cutting instruments, tools of every description, springs, locks, artistic metal articles, can be galvanized in a superior manner by this process. The multitude of articles that can be galvanized is without limit. Uniformly smooth surface is preserved, thickness of coating can be regulated, saving of spelter about 80%, besides many other advantages. *We grant licenses for territory, also shop rights on royalty basis.*

Gentlemen:-

Reporting on the merits of the Nickelehe Babbitt Metal, we have used a large quantity of it with the most satisfactory results. It has given better satisfaction than any other babbitt metal we have used, including all the standard brands, particularly for electric and marine engine bearings where it is subject to the severest duty.

We will be pleased to give you or others the names of steamers using it, also the names of their engineers and owners to whom any one can write. Without exception we believe, that all will speak favorably of it and from our own experience with it and other metals we decidely recommend it.

Very truly,
FULTON ENGINEERING & SHIP BUILDING WORKS.

Dict. by J. S. Sr. *James Spiers Pres*

YOU WILL SEND US AN ORDER.

Nickelene, although very hard, is so tough that it can be hammered to a knife edge.

Nickelene is being used by many in place of Phosphor Bronze.

Nickelene can be melted in an iron ladle or kettle, and at a little higher temperature than that necessary for melting Babbitt Metal, runs freely and makes a good casting.

NICKELENE IS THE BEST BABBITT METAL IN THE WORLD.

WRITE US FOR PRICE.

Because Business is Good

do not think you cannot make it better. Don't be satisfied because you are succeeding fairly well. Why not do still better?

Depend on it, you will never have reached the limit of success till you are handling the fast selling, *Old Reliable*

"Imperial Wheels"

—the go-lightly kind.

They are money-makers for any dealer—not because we say so, but our thousands of agents tell us so.

The popularity, quality and general reputation of Imperials are well established, and we have in our New '99 models excelled all our past efforts.

The satisfaction Imperials have always given is the secret of our SUCCESS and the SUCCESS of our agents.

Our net prices will interest any dealer. Write us.

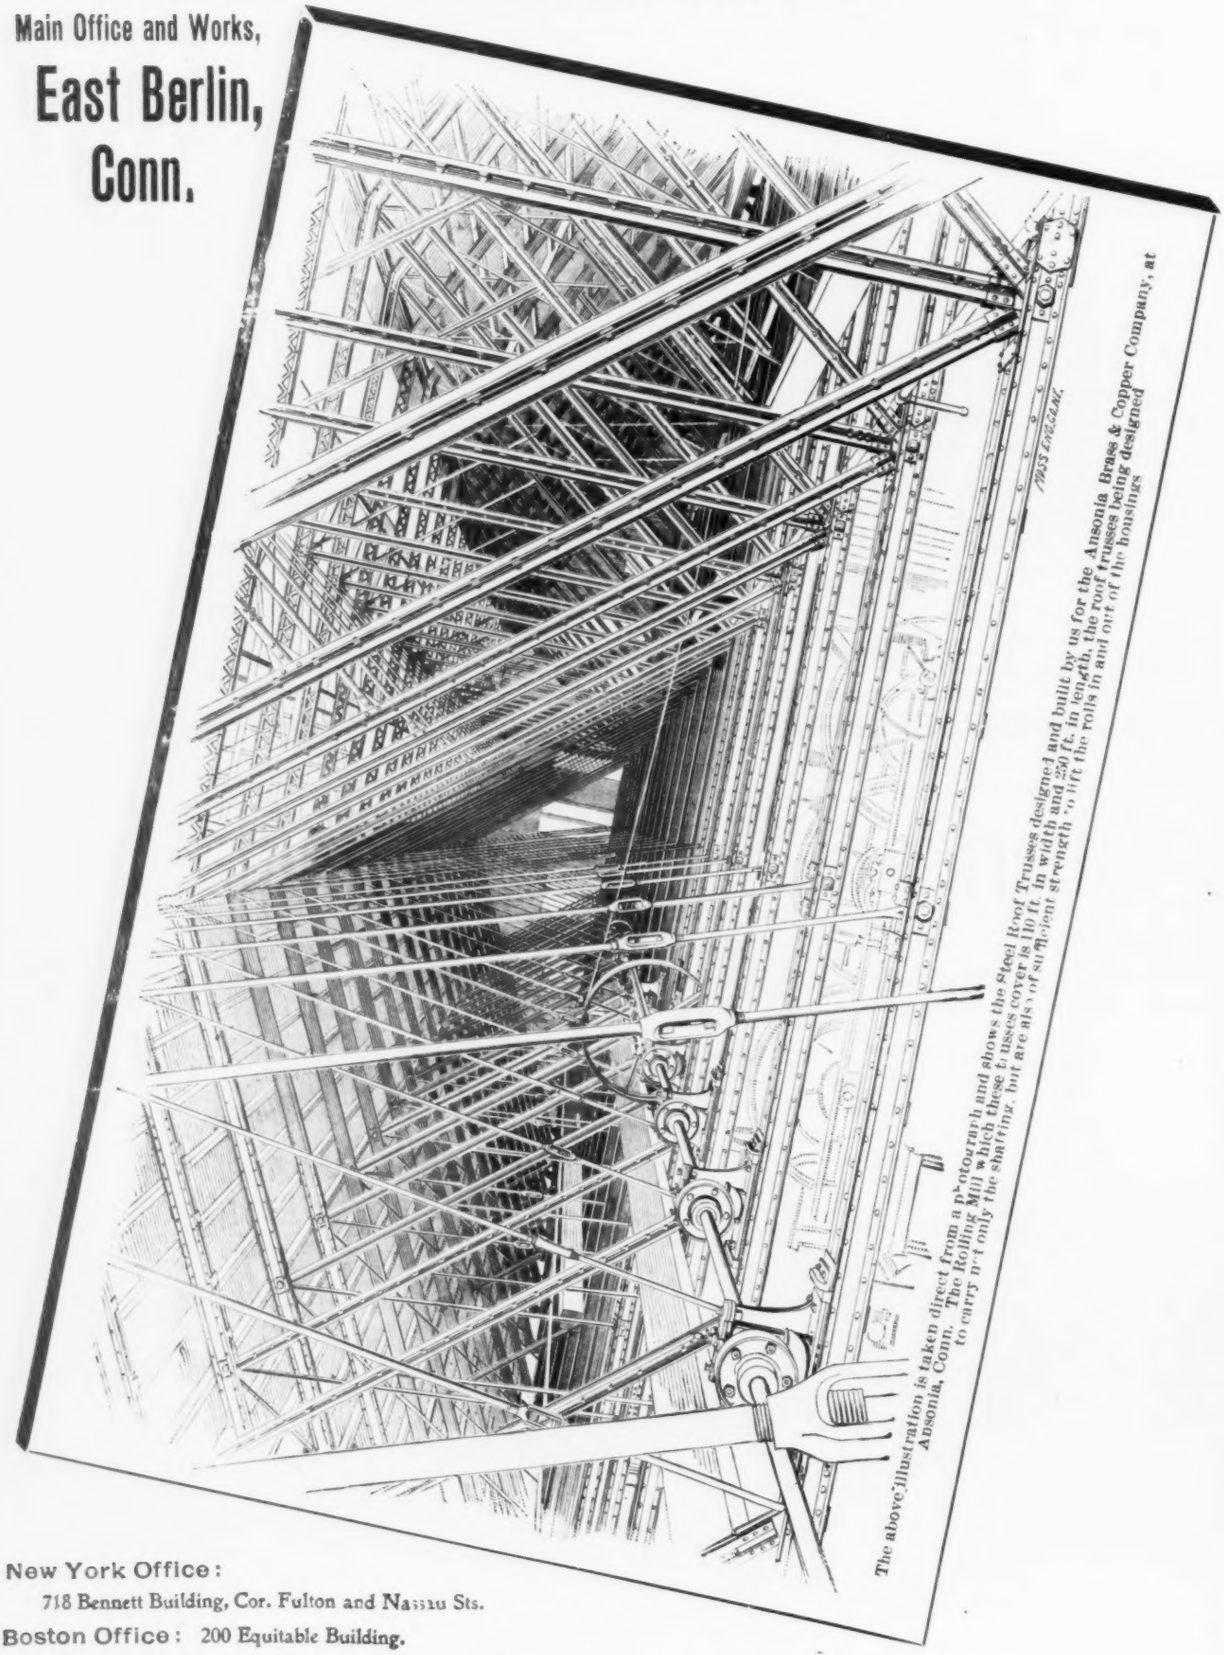
THE BERLIN IRON BRIDGE CO.,

Engineers, Architects and Builders

of Steel Structures of All Kinds.

Main Office and Works,

East Berlin, Conn.



The above illustration is taken direct from a photograph and shows the Steel Roof Trusses designed and built by us for the Ansonia Brass & Copper Company, at Ansonia, Conn. The Rolling Mill which these trusses cover is 110 ft. in width and 250 ft. in length, the roof trusses being designed to carry not only the shafting, but are also of sufficient strength to lift the rolls in and out of the housings.

New York Office:

THE TRENTON MALLEABLE IRON CO., - Trenton, N. J.
ATLAS METAL.
TENSILE 50,000 POUNDS.
Atlas Metal is defined by Prof. Charles James, the well-known Steel Expert, as "A New Commercial Product, standing between Iron and Steel, and uniting in itself the best characteristics of both."
ITS CHIEF POINTS ARE
GREAT STRENGTH. GREAT WEAR. UNIFORMITY. EASILY MACHINED.
HOMOGENEOUS.—Atlas Metal is not surface treated—the castings can be made of any weight, size or thickness, and the metal will be of uniform structure and entirely homogeneous throughout.
CORRESPONDENCE SOLICITED.

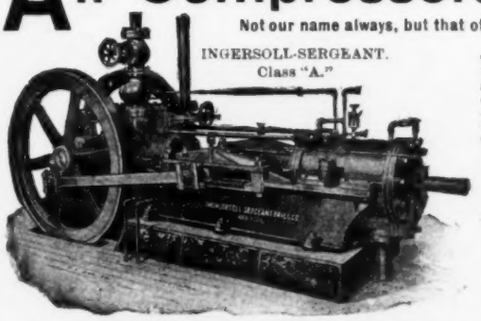
Air Compressors

Catalogue No. 32.

Not our name always, but that of others to show what can be done.



INGERSOLL-SERGEANT.
Class "A."

The Passaic Rolling Mill, Paterson, N. J., with a monthly output of 5,000 tons of structural steel, use 40 cylinder hoists, 12 riveters, 5 drills and reamers, 2 chipping tools and other apparatus, all operated by compressed air from an Ingersoll-Sergeant Class "A" Straight Line Piston Inlet Air Compressor. The plan of distribution of air power necessitated careful engineering and close investigation of the merits of Air Compressors to secure good results. It is the high-class machine, built rigidly, embodying every detail of scientific construction, that wins in a test like this.

Don't be misled by the manufacturers of steam and electric pumps who try to talk you into buying one of their poorly constructed machines because it is low in price. "The best is the cheapest." Worthington Pumps have always been conceded the best; hence, even if their first cost appears high, they will prove the safest investment in the end.

VULCANIZED FIBRE CO., Wilmington, Del.

WE HAVE HEARD IT SAID

(By those who do not know) that our COCHRANE HEATERS and COCHRANE SEPARATORS are high priced NOT SO—anything but high priced. May be you got the idea because we keep telling you how good they are—what good things we put in them. Like well built mince pies they have a first-class casing and "INSIDES" which make them worth trying.

We don t make the cheapest heater on the market—can do it. but won't. Somebody has to decide what should go in a heater. Having 13 or 14 years of experience right in this line—we've decided—and there's no skimping.

No other heater can give hotter water and better purification—is more durable or easier to clean.

Did you ever clean a heater? Not an easy matter unless it's a "COCHRANE."

Shall be pleased to hear from you.

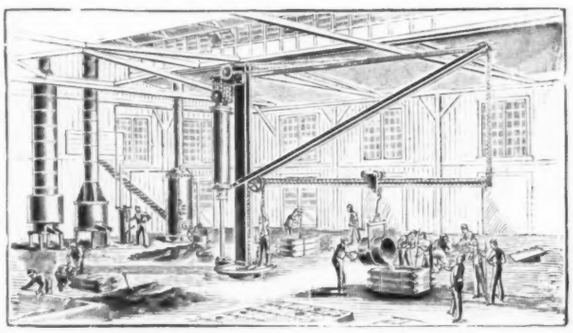
OUR PERSEVERANCE AND PATIENCE

if nothing else, ought to win your admiration and distinguished consideration. Just think of it, here we stand Thursday after Thursday every week in the year, trying to get you interested in the Ridgway Crane. We tell you what a money maker it is, and often give you what other people have to say, all to persuade you to investigate a machine for which so much is claimed.

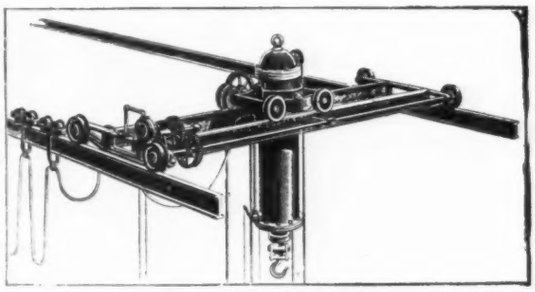
No man who has occasion to put in a crane of any sort should think of buying any other than the Ridgway Crane. Why? Because it is admitted by all who know it, to be the best crane ever invented; but the principal reason you should use it is that you **don't have to pay for it until set up in your mill or shop and it verily begins to MAKE MONEY for you right before your eyes** That is the test of a machine—not that it will work all right—but that it will earn money. You don't put in machinery for your health, but to make money. The Ridgway Crane is a money maker. If it don't make money you don't buy it, but back she comes to us.



5 ton Steam-Hydraulic Crane in a Foundry.

HYDRAULIC AIR HOISTS.

The hydraulic is used to hold the air back. The greatest air hoist on the market. Everybody now admits that. The only thing about the Ridgway hoist is that it costs more than other hoists. It costs more to make it, and not for any other reason. We hope to get the price down some day by special machinery, but people don't buy air hoists yet awhile like nails, and so at present if you want the best Air hoist upon the market, you have to pay a little more for it. Lots of people are getting them, and you would be money in pocket in the end if you got them too.



"Please take the Elevator."

A perfect hydraulic without pump or tanks, etc.

BUTTERFIELD & CO., DERBY LINE, VT. ROCK ISLAND, CAN

The Chuck that Lasts.

The usefulness of ordinary drill chucks is ended when the jaws begin to wear, because the grip of the jaws is all that keeps the drill from slipping. It's different with the Pratt Positive Drive Drill Chuck In this chuck a positive driver holds the flat end of the drill, and makes slipping impossible. Even if the chuck jaws are not tight, the tool can't slip. The equalizing driver permits the jaws to align the drill perfectly in the chuck, and hold it true. You pay as much for ordinary chucks.

Send for Booklet.

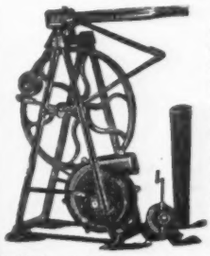
A. D. QUINT,

8 Clinton St., - - HARTFORD, CT.

Milling Machines With 4 Spindles.

The New Champion 1898 ANGLE STEEL Blacksmith Blower.

Made with Lever only or with both Lever and Crank.



The New Champion 1898 Angle Steel Blacksmith Blower frame is constructed on new principles, getting entirely away from the old and faulty construction of spreading the four ends at the lower end or base of the frame, where stiffness and firmness is most essential.

The New Champion Angle Steel Frame is entirely reversed; it has its bent and stiff parts of the angle steel for its base, and the "four" ends are stamped together at the top or upper end of the frame, connecting all the ends at the smallest possible centre, with the lever knuckle joint on top of the "four" ends, giving a direct downward motion and placing the strain of the lever motion equal on the four uprights, thus forming a binding truss, giving strength and rigidness that was never thought possible to obtain on a blower frame heretofore, also taking away entirely the usual twisting of the frame where the lever knuckle joint is placed in the corner, and the entire strain of the lever motion continually working on one upright.

Fan 16 inches and Fly Wheel 28 inches in diameter—has the capacity of a 50-inch bellows, with our Patent Tuyere Iron and Piping complete, with Lever only.....$15.00

With Lever and Crank combined..... 17.50

Write for catalogue and discounts on our entire line of Blowers, Forges, Blacksmiths' Drills, Tire Benders and Shrinkers, Screw Plates &c.

Bickford Drill & Tool Co.,

10 Lawrence St., Cincinnati, Ohio, U. S. A.

GOOD TIMES

are once more with us and to handle business quickly and economically we must be up-to-date. Wire in its varied forms enters largely into modern manufacture and its field of usefulness increases day by day. We have made Wire Straightening and Cutting Machinery a specialty for 25 years—build it in all sizes and for all classes of work. Our intimate relations with manufacturers enable us to know their needs, and last year in addition to our trade in the United States we shipped over 40 tons of Wire Straightening and Cutting Machinery to Europe. If you have only a moderate amount of work our machines will save you money. If you have a large amount—well, the largest concerns are using our machinery. Our prices are low. We build in large lots. We try to keep abreast of the times. Tell us what you need and let us send you a catalogue and quote prices.

Cold Rolled Steel Mill.

All kinds of machinery, new and second-hand, at very reasonable prices.

Locations for Industries.

The Chicago, Milwaukee and St. Paul Railway Company has all its territory districted in relation to resources, adaptability and advantages for manufacturing, and seeks to secure manufacturing plants and industries where the command of raw material, markets and surroundings will ensure their permanent success.

A number of new factories and industries have been induced to locate—largely through the instrumentality of this company—at points along its lines.

The trend of manufacturing is Westward. Confidential inquiries are treated as such. The information furnished a particular industry is reliable.

Address

LUIS JACKSON,
Industrial Commissioner, C., M. & St. P. R'y,
Old Colony Building, Chicago, Ill.

FOR SALE.

About 1,500,000 lbs. Steel Plates,

make

Circulars and Folders—differing radically from such as you *two* (i. e., yourself and your waste-paper basket) have so long been accustomed to.

Price-Lists and Catalogues—especially small ones, to enclose with your regular correspondence, easily made to cover considerable "ground" in an inconsiderable space—also larger ones, of course.

Trade Primers, Circular Letters, Announcements, Mailing Cards, Booklets, Notices, Newspaper, Periodical and Trade Journal Advertisements.

Miscellaneous Missives to meet some special requirement—the "skeleton" of which you furnish, the tissue to cover its "bones" being my concern—and so on "ad infinitum."

All such things as the above made in a manner suggesting a patient attention to details, perhaps also some ability to obtain and adapt pertinent data from outside sources—nothing, however remotely, suggesting "*omniscience*."

I am not an "Expert"—distinctly not. I desire correspondence from advertisers who claim to know a good thing when they see it. From readers of this, inclined to be somewhat skeptical, I especially desire to hear.

CHICAGO HOUSE WRECKING CO., West 35th and Iron Sts., CHICAGO, ILLS.

Made of Swedish Charcoal Steel. What?
Shelby Seamless Steel Tubing.
That's why bicycles built of it cost more and are worth more than those constructed of cheaper tubing.
BICYCLE RIDERS, for their own safety, should demand of the manufacturer or dealer a mount made of "SHELBY TUBING;" accept nothing "just as good and a little cheaper."
BICYCLE DEALERS, large and small, should handle lines constructed of "SHELBY TUBING," Why, do you ask?
It helps sell your wheels; It gives you a reputation for handling bicycles of the best construction; It helps you make a fair margin of profit on your investment. Excellent reasons, are they not?

FOUNDED 1828

SAND PAPERS IN Reams and Rolls — Flint Paper, Carnet Paper, Emery Paper, Emery Cloth

HAIR FELTING for covering Boilers, Steam and Water Pipe, and lining Refrigerators.

BAEDER, ADAMSON & CO.

730 MARKET STREET, PHILADELPHIA.
67 BEEKMAN STREET, NEW YORK.
148 MILK STREET, BOSTON.
198 LAKE STREET, CHICAGO.

DURING the past year we have perfected great improvements on our Star Hack Saw Blades, and are now filling orders with a quality which proves, by a very thorough test, to do 50% more cutting and to be 100% stronger than any which we formerly made.

The demand for these goods has steadily increased from the beginning, and we anticipate a much larger sale as soon as the new saws come fully into use. Though the value has doubled the price remains the same.

IMPROVED

Young America Scale.

It is Made of Steel. White Tile Top. Tin or Brass Scoop Top. Brass Dial.

BEST IN THE WORLD.

A most beautiful and attractive scale for all purposes. Beautifully enameled, ornamented and striped. Weighs 20 pounds by ounces. Occupies but little space. Is light and easily moved. It can be regulated by turning the brass screw on top. It is always ready and easily understood. It is a convenient scale to use and has no weights that may be lost. You can look this one in the face to prove its accuracy without looking for weights. Every scale examined before leaving the factory and warranted correct.

Take Your Choice

There are two lines of bicycles that hardware dealers can handle,

SELLERS AND STICKERS.

A bicycle manufacturer may and may not have a line that goes with a hardware dealer, a jobber picks from the whole lot the goods that he offers with the wants of the hardware dealer in view. From the many good agencies established and from the very many testimonials we have we must feel that we have been successful in our selections.

IMPORTANT DECISION RELATING TO THE

HEINISCH

TRADE-NAME ON SHEARS, TRIMMERS, &C.

The U. S. Circuit Court, Southern District of New York, Judge Townsend, has rendered a decision in the suit of "R. Heinisch's Sons Co. vs. Hermann Boker & Co."

"The Complainant is entitled to an accounting, and to an injunction restraining them from using the names 'Heinisch' or 'H. C. Heinisch' on its Shears, Labels, etc., and otherwise, in any way which will interfere with Complainant's enjoyment of the benefits of its Trade-name."

Referring to the above decision we would respectfully state our determination to protect our rights in the premises and warn all persons against any imitation of our Trade-name.

The '98 Chicago Clipper Retails For $8.75.

HARDWAREMEN—DO NOT ORDER

another old-fashioned, out of date two-hand horse clipper. Be enterprising and order the '98 CHICAGO CLIPPER. The greatest clipping machine ever invented; holds the world's record for fast clipping; time 14 minutes. You can sell one of these machines to every man who used to buy the old fashioned two-hand variety. Ask your jobber about them or send to us direct.

HAIR CLIPPERS.

If you want a clipper "with a reputation" insist on the "Stewart Patent." There is no other "just as good" and they will cost you no more than the inferior kind.

We have just been awarded Gold Medal at Trans-Mississippi Exposition, highest and only award for horse clipping, sheep shearing and cattle grooming machines.

Dry Battery Portable Electric Safety Lamp...

This is an Electric Lamp set in a White Enamel Parabolic Reflector, and can be attached to the cap or any part of the clothing by means of a stick-pin attached to reflector and connected to the battery with a flexible cord. The battery is arranged to be carried on a belt or in the pocket. So the user has free use of hands. The current can be turned off when not in use. Dry batteries are used and can be recharged from direct Incandescent Electric Current Charger and full directions go with each Lamp.

IS USED BY THE FOLLOWING: For Watchmen, Miners, Mine and Gas Inspectors, Boiler Shops, Oil and Gas Works and Gas Fitters, City Sewer and Underground Cable Inspectors; Powder Mills and Warehouses where explosive materials are manufactured and stored; exploring cellars and trenches where leaks occur, and investigating pipe connections where it is impossible to carry an oil lamp or candle for fear of explosion—and all parties requiring a safe portable light. The whole outfit is neat and compact.

No. 1 weighs 2 lbs., 1½ C. P. Price complete, $4.00.
For Meter Reading Only

No. 2 weighs 3 lbs., 4 C. P. Price complete, $6.00.

The Arcade File Works

Established 1842.

WEED'S IMPROVED CUT — GUARANTEE SEAL — ALL FILES ARE FULLY GUARANTEED — SPECIAL TEMPER

"Imitation is the Sincerest Flattery." Others can imitate our SEAL, but not our IMPROVED INCREMENT CUT.

Manufacturers of

IMPROVED INCREMENT CUT FILES.

Arcade files are made from the very best Crucible File steel, and are guaranteed to cut faster and wear longer than any on the market.

PRICES: While we do not compete with the cheap Brands made from open hearth steel, we can, owing to our modern plant and new inventions, make prices that are the lowest for Buyers desiring a high grade File with an Improved Increment Cut.

NEW YORK CITY, 97 Chambers St., 79 Reade St. | WORKS, ANDERSON, IND. | CHICAGO, 118 Lake Street.

THE ELGIN WRENCH.

Extra Jaw.

The best general purpose wrench on the market. It will turn a nut, hold a pipe or twist a rod. It is not clumsy, but flat and neat. It is the only adjustable wrench (with its range of work) that can be conveniently carried in the pocket. When jaws wear out, old ones can be replaced with new. Nickel plated and perfectly constructed. Write us for prices.

The St. Louis Washing Machine.

UNEQUALED IN EFFICIENCY,

Capacity, and Perfect Working Qualities.

Constructed on Scientific Principles. A long felt want supplied. Actual trial has proven beyond a doubt that it will

Wash Cleaner,

Quicker, with More Ease and Less Injury to the Clothes than any Machine now in Use. . .

Patent Applied For.

The St. Louis Washer is a double acting machine, working with two cylinders in opposite directions at the same time, thus cleansing the clothes more thoroughly than could possibly be done on the old fashioned board or any other washing machine now on the market. It is so arranged that it is absolutely impossible to tear the clothes, and works so simply and easily that a child can work it without fatigue.

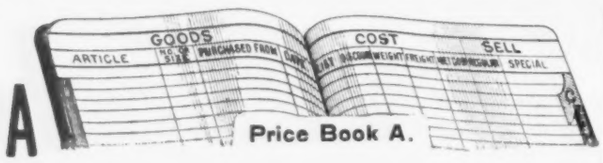
THE IRON AGE
HARDWARE PRICE BOOKS.

Arranged by R. R. WILLIAMS, Hardware Editor of The Iron Age.

These Price Books are made in a variety of sizes and styles adapted to pocket, store or desk use, and are specially arranged to meet the requirements of the Hardware and Metal trades. They are printed on paper of superior quality and bound in grain seal leather.

A



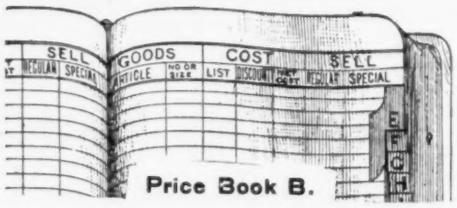
Price Book A.

Columns are provided for the name and number or size of goods, for noting from whom purchased, date of quotation or purchase, list and discount, and for entering freight expenses. Under the heading of selling prices, the regular and any special price or remarks in regard to the goods are given place. ***Size of page, 4 x 7 inches.***

FOUR EDITIONS:

A, 200 pages, - - $1.00 **A 2,** 400 pages, - - $1.50
A F, 200 pages with flap, 1.25 **A F 2,** 400 pages with flap, 1.75

B



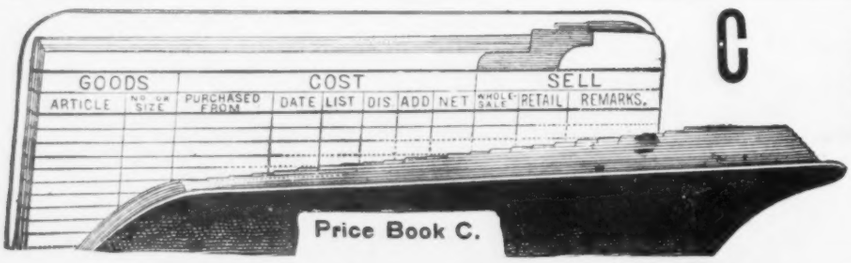
Price Book B.

In this book each page is complete in itself, and the record of prices does not, as in Book A, run across two pages Thus it accommodates a larger range of goods with much less detail in the record. By the use of familiar abbreviations is sufficiently large for the convenient and concise record of prices. ***Page, 4 x 7 inches.***

FOUR EDITIONS:

B, 200 pages, - - $1.00 **B 2,** 400 pages, - - $1.50
B F, 200 pages with flap, 1.25 **B F 2,** 400 pages with flap, 1.75

C



Price Book C.

The headings in Book C run across the top, in a line parallel with the hinge. The details of weight and freight contained in Book A are omitted, and a single column headed "Add" given for the insertion of freight or other expenses. Under the selling prices space is left for the wholesale price, the retail price, and for remarks. ***Page, 4½ x 7¾ inches.***

FOUR EDITIONS:

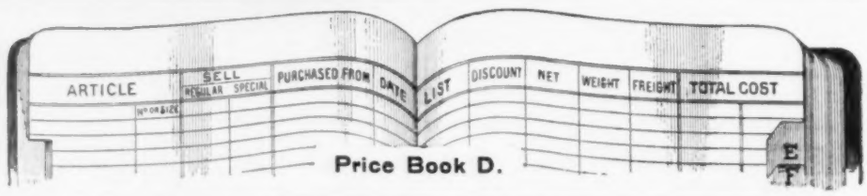
C, 200 pages, - - - $1.00
C F, 200 pages with flap, - 1.25
C 2, 400 pages, - - - 1.50
C F 2, 400 pages with flap, - 1.75

Suitable for desk and store use, and for salesmen on the road. A number of pages at the back of the book are arranged for memoranda. ***Page, 5¼ x 8 inches.***

FOUR EDITIONS:

D, 200 pages. - - - $2.00
D F, 200 pages with flap, - 2.50
D 2, 400 pages. - - - 3.00
D F 2, 400 pages with flap, 3.50

D



Price Book D.

MULTIPLE INDEX PRICE BOOKS.

A special feature of these books is the index, which is arranged with special reference to the classification of Hardware Goods, each index character giving the first two or three letters of the names of Hardware articles. There is an index character to every page, enabling immediate reference to any of the contents of the book. The ease and convenience with which the books can be used is indicated in the following examples, taken from Book F:

For Augers, turn to **AU** For Chisels, turn to **CH$^{I}_{U}$** For Iron, turn to **IRO**
" Parers, Apple " **PA$^{P}_{R}$** " Cutlery, " **CUT** " Irons, " **IR'S**

Both E and F are made of Heavy Ledger Paper and strongly bound in grain seal leather.

YUKON Refrigerators.

ARTHUR BRITTAN & CO.,

156 Lake Street, - - Chicago,

General Sales Agents.

The Yukon combines all the best points of the best makes with several new features, which makes it the best Refrigerator on the market.

The Yukon is made in two styles, with ***Removable Flues,*** and with the ***entire Ice Chamber Removable.***

We note some of the excellent features of the Yukon:

Thoroughly seasoned ash lumber.
Elegance of finish.
Carved panels.
Swinging and removable base board.
Solid bronze hardware, Roman gold finished.
Zinc lined. Patent casters.
Galvanized iron flues, ice rack and shelves.

The shelves being so constructed that small dishes placed upon them will not tip over.

Patent Trap, connected with waste pipe in bottom of provision chamber, where it is most accessible, both trap and waste pipe being easily removed cleaned and replaced, without a back-breaking process or poking with a stick.

The insulation used is ***Granite Rock Wool*** and Charcoal Sheathing.

Buy the Yukon and you will have the best Refrigerator made as well as an elegant piece of furniture.

THE TOLER

Liquid Door Check and Spring.

PERFECTION ATTAINED AT LAST.

Entirely new in style and mechanism, **strong simple and effective**, giving in results all the best achievements of other checks, together with new and valuable features only to be found in this.

It has a vertical case, with openings only at the top.

It has no plugs or caps screwed to the cylinder ends. It cannot leak. There is no way for the liquid to escape after the Check is applied.

The piston is idle during a greater part of the opening and closing of the door, thus saving the wear on all parts.

It is made of the very best of material throughout.

It works to perfection, closing the door quickly and gently.

It is easily taken apart by anyone; no returning to the factory for anything. This saves time and money. The working of the Check will speak for itself.

Regular finish, Gold Bronze No extra price for Silver Bronze or Dead Black when so ordered. Furnished Plated in Brass, Nickel, Copper or Silver, Plain or Oxidized, at a reasonable extra charge. No extra charge for Brackets where needed.

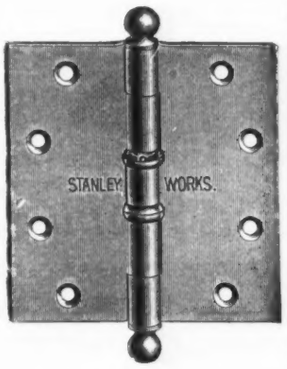
Stanley's Ball Bearing Steel Butts.



They are being extensively advertised, and you will have calls for them. Many architects are specifying them for *all* their best work. The reason is obvious. There is nothing else made in the way of hinges possessing so many merits. You know what these merits are? If not, send for illustrated booklet.

GLIDDEN'S METALLIC REPAIR OUTFIT

The one that has the Hinged Plugs.

THIS is the smallest, neatest, most compact and practical repair outfit ever offered to the public. Complete in a tin box 1⅝ inches long, 1 inch wide and ¼ inch thick. It will repair a puncture at once, without the use of cement, and any woman or child can use it. The plug is made of metal with a **hinged head, which can be forced into a much smaller opening than one with a stationary head.** Two sizes of plugs are furnished with each kit, which will fit ordinary punctures; also a cutter is furnished, to be used when the puncture is too small to admit the plug.

Directions for use. Place the flat plate of the plug so it will be loose on the key. Screw the key into the plug and insert into the hole, leaving the flat plate on the outside of tire. Draw back the key so that the plug will rest flat on the inside of the tire. Screw the flat plate to plug with wrench (left hand thread), and turn key to right. Remove the key by turning to left, and you have a permanent repair which does not injure the tire or its looks.

DISCOUNT TO THE TRADE, ASK YOUR JOBBER FOR IT.

TYLER'S SAFETY WEANER

Pat. Oct 2, 1886

No sharp points in front to prick or gouge the cow.

Perfectly safe and harmless. Is the only Weaner having any side protection to prevent sucking sidewise, and is warranted to wean the most obstinate case without cruelty or injury. Does not go through nose or swing loose to wear the nose or make it sore.

HALTER WEANER.

Pat. Sep. 6, 1892

Does not go into the nose, but is put on same as a halter and will wean any calf and prevent cows sucking themselves. Made in four sizes, same as safety weaner: No. 1 for small calves, No 2 for large calves, No 3 for yearlings, No. 4 for 2-year olds.

FOR SALE BY ALL JOBBERS.

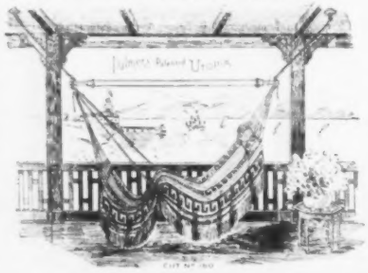
As used with Trapeze Suspension.



The Largest Variety of Styles and Colors.

SEND FOR NEW CATALOGUE FOR 1899.

Infringers are being prosecuted.

The Valance Hammock has merits in addition to those of grace and beauty. The Valance serves to screen the body, or may be used as a covering.

The Royal is strung to give divided suspension, with wood bars, continuous stringing, and adjustable hitch ends for single or double ropes.

PALMER'S ARAWANA (Patented).

As used with Trapeze Suspension

CUT NO 162.

The above figure shows an Arawana slung from a Trapeze adjusted to its maximum extension as regards its suspension from the ceiling.

The Trapeze Suspension, as may be seen at a glance, is especially adapted to Veranda use, is adjustable to different sizes of Hammocks within its scope (from 6 ft. 3 in. to 11 ft.) and to giving different degrees of dip and heights of suspension. Every conceivable swinging motion is obtained without effort.

As used with Hammock Support.

BILLINGS PATENT HAND VISE

PATENTED AUG. 28, 1894.

Illustrations represent Vise and Clamp one-half actual size.

Designed for jewelers', tool makers' and machinists' use. All parts drop forged of best steel for the purpose. The jaws have a positive opening and closing movement in parallel lines, actuated by a right and left hand screw, moving the jaws simultaneously toward or from each other. A hole is entirely through the handle, and the jaws will grasp and hold central round wire from 1-16 in. up to and including $\frac{1}{4}$ in. in diameter. The jaws open $\frac{3}{4}$ in.

This cut represents a clamp for folding the vise when in use as a bench vise.

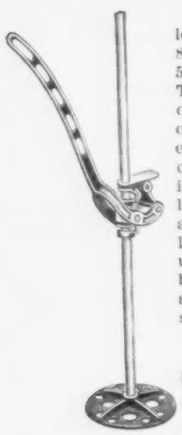
THE WINNER LIFTING JACK...



This size, No. 1, weighs less than 5 lbs. and will lift 800 lbs. No. 2 weighs just 5 lbs. and will lift 1,500 lbs. The lifter may be raised or lowered to any point on the standard. Wherever it is stopped it becomes instantly locked. It is loosened again instantly by raising the lever to an upright position. The load may be raised gradually to the desired height by working the lever up and down. Made in two sizes, Nos. 1 and 2.

THE IOWA FARMING TOOL CO.,

FORT MADISON, IOWA.

COVERT CARRIAGE and WAGON JACKS.

No. 475.

THE COVERT STEEL CARRIAGE JACK weighs six pounds and will lift 1,000 pounds.

The step is **leather covered,** thus effectually preventing the metal coming in contact with the axle and marring the paint. The step can be readily adjusted to the height of any axle. It has a direct perpendicular lift, without any horizontal or oscillating movement so objectionable in other Jacks.

COVERT STEEL WAGON JACK is made for heavy work; weighs ten pounds and will lift 2,000 pounds.

For Sale by Jobbers at Manufacturers' Prices.

Wheelock, Lovejoy & Co., N. Y., and Boston.

Steel (Mushet's Special).
Jones, B. M. & Co., Boston.

Steel Manufacturers.
Bethlehem Iron Co., S. Bethlehem, Pa.
Boker, Hermann & Co., 103 Duane St.
Braeburn Steel Co., Braeburn, Pa.
Chester Steel Castings Co., Phila., Pa.
Chrome Steel Works, Brooklyn, N. Y.
Crescent Steel Co., Pittsburgh, Pa.
Frankford Steel Co., Philadelphia.
Hart & Cooley Mfg. Co., So. Chicago, Ill.
Hobson, Seaman & Co., 98 John St., N. Y.
Jessop, Wm. & Sons., Sheffield, England, or 91 John, N. Y.
Jones & Laughlins, Ltd., Pittsburgh, Pa.
La Belle Steel Co., Pittsburgh, Pa.
Lukens Iron & Steel Co., Coatesville, Pa.
Otis Steel Co., Ltd., Cleveland, Ohio.
Rowland, Wm. & Harvey, Frankford, Philadelphia.
Singer, Nimick & Co., Inc., Pittsburgh.
Wardlow, S. & C., Sheffield, Eng.
Whitney, A. R. & Co., 29 Broadway, N. Y.
Wilmot & Hobbs Mfg. Co., Bridgeport.

Manufacturers' Agents.
O'Toole, James, Chicago, Ill.
Ogden & Wallace, 577-583 Greenwich St.
Pierson & Co., 29 Broadway, N. Y.
Snyder, W. F. & Co., Pittsburgh, Pa.

Steel, Self Hardening.
Denman & Davis, 85-87 John St., N. Y

Steel Rails.
Ætna-Standard Iron & Steel Co., Bridgeport, O.
Bethlehem Iron Co., S. Bethlehem, Pa.
Riverside Iron Wks., Wheeling, W. Va.

Steel Stamps and Stencil Dies.
Ness, Geo. M., Jr., 61 Fulton St. N. Y.
Schwerdtle & Siebert, Bridgeport, Conn

Steel, Tool.
Braeburn Steel Co., Braeburn, Pa.
Damascus Steel Co., Pittsburgh, Pa.
Denman & Davis, 85-87 John St., N. Y.
Frankford Steel Co., Philadelphia, Pa.
Jessop, Wm. & Sons, Sheffield, England or 91 John, N. Y.
Jones, B. M. & Co., Boston, Mass.
La Belle Steel Co., Pittsburgh, Pa.
Singer, Nimick & Co., Pittsburgh, Pa.

Step Ladders, Rolling.
Bicycle Step Ladder Co., Chicago, Ill.
Coburn Trolley Track Mfg. Co., Holyoke.
Milbradt, G. A. & Co., St. Louis, Mo.
Morley Bros., Saginaw, Mich.

Stocks and Dies.
Armstrong Mfg. Co., Bridgeport, Conn
Curtis & W. Mfg. Co., Mansfield, Mass.
Curtis & Curtis, Bridgeport, Conn.
Fairbank Co., 341 B'way, N. Y.
Jarecki Mfg. Co., Erie, Pa.
Saunders' Sons, D., Yonkers, N. Y.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield.

Stokers.
Sellers, Wm. & Co., Phila., Pa.

Stone Working Machinery.
Patch, F. R. Mfg. Co., Rutland, Vt.

Store Fixtures.
Dempsey Mfg. Co., Cleveland, O.

Stove Linings.
Ostrander Fire Brick Co., Troy, N. Y.

Stoves, Oil, Vapor & Gasoline.
Schneider & Trenkamp Co., Cleveland, O.

Structural Iron Work.
Berlin Iron Bridge Co., Berlin, Conn.
Boston Bridge Works, Boston, Mass.
Moseley Iron Bridge & Roof Co., 39 Cortlandt St., N. Y.
Shiffler Bridge Co., Pittsburgh, Pa.
Stewart Iron Works, Cincinnati, Ohio.

Sulphuric Acid.
Matthiessen & Hegeler Zinc Co., La Salle, Ills

Swaging Machines.
Excelsior Needle Co., Torrington, Conn.

Table Ware.
Rogers, Wm. Mfg. Co., Hartford, Conn.
Wallace Bros., Wallingford, Conn.

Tack Claws.
Mayhew, H. H. Co., Shelburne Falls Mass.

Tacks, Brads, Staples, &c.
Grand Crossing Tack Co., Grand Crossing, Ill.
Milwaukee Tack Co., Milwaukee, Wis.
Shelton Co., Birmingham, Conn.
Tower Mfg. Co., Madison, Ind.

Tack and Nail Machinery.
Kimball Bros. & Sprague, Brockton, Sweetser, W. A., Brockton, Mass.

Tap Holder
Ideal Machine Works, Hartford, Conn.

Taps and Dies.
Besly, C. H. & Co., Chicago, Ill.
Butterfield & Co., Derby Line, Va.
Card, S. W. Mfg. Co., Mansfield, Mass.
Proudman Bros., Meriden, Conn.
Reece, E. F. Co., Greenfield, Mass.
Wells Bros. & Co., Greenfield, Mass.
Wiley & Russell Mfg. Co., Greenfield.

Telephones.
Rawson Electric Co., Elyria, Ohio.

Terne Plate.
American Tin Plate Co., Chicago, Ill.

Tin Mills.
Phillips, F. R. Sons, Phila., Pa.

Tinners' Tools and Machines.
Niagara Machine & Tool Works, Buffalo.

Tin Plate.
American Tin Plate Co., Chicago, Ill.

Tin Plate Machinery.
Lloyd Booth Co., Youngstown, O.

Tinware.
Keen & Hagerty Mfg. Co., Baltimore

Tire Repair Outfits.
Burt, J. H. Mfg. Co., Springfield, Mass.
Dame, Stoddard & Kendall, Boston, Mass

Toe Calks, Steel.
Burke, P. F., Boston, Mass.

Toe Clips
Snow, L. T., New Haven, Conn.

Tool Chests.
Am. Tool Chest Co., 200 W. Houston St.

Tools.
Athol Machine Co., Athol, Mass.
Besly, C. H. & Co., Chicago, Ill.
Brown, R. H. & Co., New Haven, Conn.
Goodell Bros. Co., Greenfield, Mass.
Mayhew, H. H. Co., Shelburne Falls, Millers Falls Co., 93 Reade, N. Y.
Scholhorn, Wm. Co., New Haven, Conn
Springfield Machine Screw Co., Springfield, Mass.
Stanley Rule & Level Co., 29 Chambers.
Starrett, L. S. Co., Athol, Mass.
Stevens J., Arms & Tool Co., Chicopee.

Tools, Blacksmith and Wheelwright.
Butts & Ordway Co., Boston, Mass.
Champion Blower & Forge Co., Lancaster, Pa.
Wiley & Russell Mfg. Co., Greenfield Mass.

Tools, Steam and Gas Fitters'.
Saunders' Sons, D., Yonkers, N. Y.

Torches, Oil and Gasoline.
Schneider & Trenkamp Co., Cleveland, O.

Tote Boxes.
Clark, W. J. & Co. Salem, O

Trimmer Guards.
Stimpson, Edward, & Son, 31 Spruce St., N. Y.

Trowels.
Bishop, Geo. H. & Co., Cincinnati, O.
Disston, Henry & Sons, Phila., Pa.
National Saw Co., Newark, N. J.

Trucks.
Boston & Lockport Block Co., Lockport.
Kilbourne & Jacobs Mfg. Co., Columbus.
Syracuse Chilled Plow Co., Syracuse, N. Y

Tube Cutters.
Groves & Baines, Philadelphia, Pa.

Tubes, Seamless Drawn Copper, Brass and Bronze.
Ansonia Brass & Copper Co., 19 and 21 Cliff, N. Y.
Hungerford, U. T., Brass & Copper Co., 121 Worth St., N. Y.
Randolph & Clowes, Waterbury, Conn.

Tubing, Brass.
Hungerford, U. T., Brass & Copper Co., 121 Worth St., N. Y.
Spofford, W. S. & Son, Providence, R. I.

Tubing, Iron.
Phoenix Tube Co., Brooklyn, N. Y.

Tubing, Steel.
Leng's, John S. Son & Co., 4 Fletcher St.
National Tube Wks. Co., McKeesport, Pa.
Pope Tube Co., Hartford, Conn.
Shelby Steel Tube Co., Cleveland, O.
Wilmot & Hobbs Mfg. Co., Bridgeport.

Tumbling Barrels.
Henderson Bros., Waterbury, Conn.

Turnbuckles.
Cleveland City Forge & Iron Co., Cleveland, O.
Merrill Bros., Brooklyn, E. D.

Twist Drills.
Cleveland Twist Drill Co., Cleveland.
Morse Twist Drill & Machine Co., New Bedford, Mass.
Slocomb, J. T. & Co., Providence, R. I.
Standard Tool Co., Cleveland.

Upholsterers' Hardware.
Hungerford, U. T., Brass & Copper Co., 121 Worth St., N. Y.
Turner & Seymour Mfg. Co., Torrington.

Valves, Gas, Water and Steam.
Ashton Valve Co., Boston, Mass.
Chapman Valve Mfg. Co., Boston.
Crosby Steam Gage & Valve Co., Boston.
Eastwood Wire Mfg. Co., Belleville, N. J.
Jenkins Bros., 71 John, N. Y.
Lunkenheimer Co., Cincinnati, O.
McNab & Harlin Mfg. Co., 56 John, N. Y.
Mason Regulator Co., Boston, Mass.
Wood, R. D. & Co., Philadelphia, Pa.

Vehicles.
Parry Mfg. Co., Indianapolis, Ind.

Ventilating Fans.
American Blower Co., Detroit, Mich.
Bayley, Wm. & Sons Co., Milwaukee, Wis.
Buffalo Forge Co., Buffalo, N. Y.
Sturtevant, B. F. Co., Boston, Mass.

Ventilator Appliances.
Howard & Morse, 45 Fulton St., N. Y.

Vises.
Athol Machine Co., Athol, Mass.
Bignall & Keeler Mfg. Co., Edwardsville, Ill.
Bonney Vise & Tool Wks., Phila., Pa.
Hollands Mfg. Co., Erie, Pa.
Lewis Tool Co., 44 Barclay St., N. Y.
Parker, Chas Co., Meriden, Conn.
Prentiss Vise Co., 44 Barclay, N. Y.
Utica Drop Forge & Tool Co., Utica, N. Y.

Wagon Jacks.
Anderson Pole & Shaft Co., Anderson, Ind.
Covert Mfg. Co., West Troy, N. Y.
Covert's Saddlery Works, Farmer, N. Y.
Kane Bros. Co., Poughkeepsie N. Y.
Woodruff, Walter W. & Sons, Mt. Carmel, Conn

Washers.
Haskell, Wm. H. Mfg. Co., Pawtucket, R. I.
Milton Mfg. Co., Milton, Pa.
Nut & Washer Mfg. Co., Milwaukee, Wis.
Sternbergh, J. H. & Son, Reading, Pa.
Wilson & Smith, Worcester, Mass.

Washing Machines.
Brammer, H. F. Mfg. Co., Davenport, Ia.
Wayne, Anthony Mfg. Co., Ft. Wayne, Ind.

Water Meters.
Worthington, Henry R., 86 & 88 Liberty St., N. Y.

Water Wheels.
Poole, Robt. & Son Co., Baltimore, Md.

Weaners
Carroll Muzzle Co., Carroll, Iowa.

Well Auger.
Iwan Bros., Streator, Ill.

Well Supplies.
Cook, A. D., Lawrenceburg, Ind.

Wheelbarrows.
American Steel Scraper Co., Sidney, O.
Kilbourne & Jacobs Mfg. Co., Columbus.
Syracuse Chilled Plow Co., Syracuse, N. Y.

Wind Mills.
Flint & Walling Co., Kendallville, Ind.

Window Cord.
Samson Cordage Works, Boston, Mass.

Window Fasteners.
Stanley Works, New Britain, Conn.

Window Stops.
Taplin Mfg. Co., Forestville, Ct.

Wire.
Dillon-Griswold Wire Co., Sterling, Ill.
Miller & Van Winkle, Brooklyn, N. Y.
New Haven Wire Mfg. Co., New Haven.
Norristown Wire Co., Norristown, Pa.
Pittsburgh Wire Co., Pittsburgh, Pa.
Stewart Wire Co., Easton, Pa.
Townsend, C. C. & E. P., New Brighton.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester.
Whitney, A. R. & Co., 29 B'way, N. Y.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Chains.
Bridgeport Chain Co., Bridgeport, Conn.
Hungerford, U. T., Brass & Copper Co., 121 Worth St., N. Y.
Oneida Community, Ltd., Niagara Falls, N. Y.

Wire Cloth.
Barnum, E. T., Detroit, Mich.
Clinton Wire Cloth Co., Clinton, Mass.
Darby, Edward & Sons, Philadelphia.
Estey Wire Works Co., 65 Fulton, N. Y.
Gilbert & Bennett Mfg. Co., 42 Cliff.
Howard & Morse, 45 Fulton, N. Y.
Hungerford, U. T., Brass & Copper Co., 121 Worth St., N. Y.
Ludlow Saylor Wire Co., St. Louis, Mo.
N. J. Wire Cloth Co., Trenton, N. J.
New York Wire Cloth Co., 102 Chambers St., N. Y.
Scheeler's Sons, Buffalo, N. Y.
Wickwire Bros., Cortlandt, N. Y.
W. S. Tyler Wire Works Co., Cleveland
Wright & Colton Wire Cloth Co., Worcester, Mass.

Wire Cutters.
King, J. M. & Co., Watertown, N. Y.
Scholhorn, Wm. Co., New Haven, Conn.
Utica Drop Forge & Tool Co., Utica, N. Y.

Wire Dies.
McFarland, Wm., Trenton, N. J.

Wire Drawing Machinery.
Morgan Construction Co., Worcester, Massberg & Granville Mfg. Co., Providence, R. I.

Wire Fences.—*See Fencing, Iron and Wire.*

Wire Goods.
Brooks, M. S. & Sons, Chester, Conn.
Darby, Edward & Sons, Phila.
Gilbert & Bennett Mfg. Co., 42 Cliff St.,
Hendee Wire Brush Co., Milwaukee, Wis.
Jenckes, E. Mfg. Co., Pawtucket, R. I.
New York Wire Cloth Co., 102 Chambers St., N. Y.
Scheelers Bros., Buffalo, N. Y.
Wickwire Bros., Cortlandt, N. Y.
Wire Goods Co., Worcester, Mass.

Wire Forming Machinery.
American Wire Goods Co., Lowell, Mass.
Automatic Machine Co., Bridgeport, Ct.
Manville, E. J. Mch. Co., Waterbury, Ct.
Nilson, A. H. Mch. Co., Bridgeport, Conn.
Proudman Bros., Meriden, Conn.
Shuster, F. B. Co., New Haven, Conn.

Wire Nails.
American Steel & Wire Co., Chicago, Ill.
Milwaukee Tack Co., Milwaukee, Wis.
Pittsburgh Wire Co., Pittsburgh, Pa.
Taunton Wire Nail Co., Taunton, Mass.
Townsend, C. C. & E. P., New Brighton.
Whitney, A. R. & Co., 29 Broadway, N. Y.

Wire Nail Machinery.
Bates Machine Co., Joliet, Ill.
Miller, H. J., Bridgewater, Mass.
National Machinery Co., Tiffin, Ohio.

Wire Parts.
Jenkinson, R. C. & Co., Newark, N. J.

Wire Rods, Steel.
American Steel & Wire Co., Chicago, Ill.
Pittsburgh Wire Co., Pittsburgh, Pa.
Washburn & Moen Mfg. Co., Worcester, Whitney, A. R. & Co., 29 B'way, N. Y.
Wolff, R. H. & Co., Ltd., 118th Street and Harlem River, N. Y.

Wire Rope, Iron and Steel.
Broderick & Bascom Rope Co., St. Louis,
Hazard Mfg. Co., Wilkesbarre, Pa
A. Leschen & Sons Rope Co., St. Louis.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester

Wire Rope Clip.
Cincinnati Railway Supply Co., Cincinnati O.

Wire Straightening and Cutting Machinery.
Shuster, F. B. Co., New Haven, Conn.

Wood Screw Machinery.
Cook, Asa S. & Co., Hartford, Ct.

Wood Working Machinery
Defiance Machine Works, Defiance, O.
Seneca Falls Mfg. Co., Seneca Falls, N. Y.

Wrenches.
Bemis & Call Hdw. & Tool Co., Springfield, Mass.
Bonney Vise & Tool Co., Phila., Pa.
Coes Wrench Co., Worcester, Mass.
Hungerford, U. T. Brass & Copper Co., 121 Worth St., N. Y.
Keystone Drop Forge Co., Phila., Pa.
Peck, Stow & Wilcox Co., 27 Murray St., N. Y.
Star Mfg. Co., Carpentersville, Ill.
Williams, J. H. & Co., Brooklyn, N. Y.

Zinc Nails.
Phillips E. & Sons, So. Hanover, Mass.

Zinc Plates.
Phillips, E. & Sons, So. Hanover, Mass.

NEW YORK, Nov. 26, 1897.

NORTH AMERICAN METALINE CO., 43 Third St., Long Island City, N. Y.

Gentlemen: Your favor of 20th inst. received; in reply are pleased to say that your Metalined Bushings have given us entire satisfaction. We first applied them in 1886 or '87 under very trying conditions, put them in fast running loose pulleys with high tension belt, and they gave perfect satisfaction. Since then, we have extended their use throughout our works, and they have given satisfaction wherever we have placed them. Very truly yours,

JAS. PYLE & SONS.

New "Cold" Process of Galvanizing.

In use for more than two years with best and absolutely satisfactory results. Articles that cannot be galvanized by any other process, such as screws, nuts, cutting instruments, tools of every description, springs, locks, artistic metal articles, can be galvanized in a superior manner by this process. The multitude of articles that can be galvanized is without limit. Uniformly smooth surface is preserved, thickness of coating can be regulated, saving of spelter about 80%, besides many other advantages. *We grant licenses for territory, also shop rights on royalty basis.*

GALVANIZING DONE AT OUR PLANT.....
9-11 Frankfort St.

U. S. Electro Galvanizing Co.,
348 Broadway, New York.

"Lang Lay" Wire Rope.

Wires and strands twisted in the same direction. Why? To get a longer bearing surface on the wires.

Advantages claimed are greater flexibility and longer life. There's a trick in making it, but we sell it at the same price as ordinary wire rope.

If you don't want this we can give you the regular lay, and also ropes for special applications. Also equipments for Wire Rope Tramways, Cable Hoist Conveyors, Surface and Underground Haulage, etc.

We are not responsible for delay or non-fulfillment of contract when caused by strikes, acts of government or other unavoidable causes

San Francisco Sept. 29/98.

Hoyt Metal Co.,
St. Louis, Mo.

Gentlemen:-

Reporting on the merits of the Nickelehe Babbitt Metal, we have used a large quantity of it with the most satisfactory results. It has given better satisfaction than any other babbitt metal we have used, including all the standard brands, particularly for electric and marine engine bearings where it is subject to the severest duty.

We will be pleased to give you or others the names of steamers using it, also the names of their engineers and owners to whom any one can write. Without exception we believe, that all will speak favorably of it and from our own experience with it and other metals we decidely recommend it.

Very truly,
FULTON ENGINEERING & SHIP BUILDING WORKS.

Dict. by J. S. Sr. *James Spiers Pres*

YOU WILL SEND US AN ORDER.

HOYT METAL CO.. ST. LOUIS, MO. ARLINGTON, N. J.

Nickelene, although very hard, is so tough that it can be hammered to a knife edge.

Nickelene is being used by many in place of Phosphor Bronze.

Nickelene can be melted in an iron ladle or kettle, and at a little higher temperature than that necessary for melting Babbitt Metal, runs freely and makes a good casting.

NICKELENE IS THE BEST BABBITT METAL IN THE WORLD.

IRON and STEEL SHEETS
(BLACK OR GALVANIZED)

Every maker guarantees the quality of his goods—otherwise it would be impossible for him to sell again. We have two inspectors carefully examine each side of every Galvanized Sheet we make. Only perfect sheets are shipped. This is far more important to buyers than to have the avail of a guarantee. Of course we guarantee our sheets, as nothing but perfect sheets are shipped.

THE CINCINNATI CORRUGATING CO., · Box 312, Piqua, O.

Be Progressive

and use Aluminum Coated Sheet Steel.

Superior in all respects to galvanized iron. It contains all its merits, with none of its defects. It is united more firmly to the base, consequently does not peel like galvanized iron. It can be heated to a red heat without destroying the coating. Sulphurous gases, brine, salt and acids do not affect it as readily as galvanized. It can be soldered with common solder. It is the only metal that will hold kerosene, gasoline and all other carbon oils satisfactorily. Give it a trial and be convinced. Prices and samples furnished on application.

Manufactured by the **STEEL AND IRON METAL COATING CO.,** WEST CHICAGO, ILL.

The above illustration is taken direct from a photograph and shows the Iron Roof Trusses designed and built by us to cover the Rolling Mill of the Coe Brass Mfg. Co., at Torrington, Conn. This mill is 118 ft. in width and 253 ft. in length, the roof trusses being designed not only to carry shafting but of sufficient strength to lift machinery in and out of place. The illustration shows one of the best designed and equipped Brass Rolling Mills in the United States.

ATLAS METAL.
TENSILE 50,000 POUNDS.
Atlas Metal is defined by Prof. Charles James, the well-known Steel Expert, as "A New Commercial Product, standing between Iron and Steel, and uniting in itself the best characteristics of both."
ITS CHIEF POINTS ARE
GREAT STRENGTH. GREAT WEAR. UNIFORMITY. EASILY MACHINED.
HOMOGENEOUS.—Atlas Metal is not surface treated—the castings can be made of any weight, size or thickness, and the metal will be of uniform structure and entirely homogeneous throughout.
CORRESPONDENCE SOLICITED.

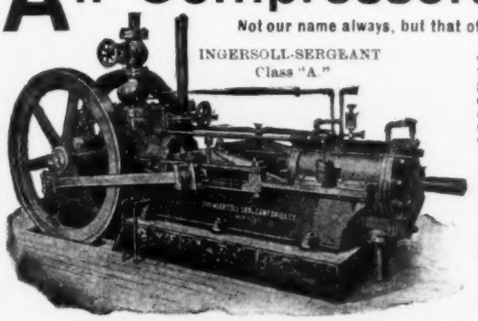
THE NORWALK IRON WORKS CO., SOUTH NORWALK, CONN., MAKERS OF AIR AND GAS COMPRESSORS FOR ANY VOLUME AND FOR ANY PRESSURE.

Air Compressors Catalogue No. 32.

Not our name always, but that of others to show what can be done.

INGERSOLL-SERGEANT Class "A"



The Passaic Rolling Mill, Paterson, N. J., with a monthly output of 5,000 tons of structural steel, use 40 cylinder hoists, 2 riveters, 5 drills and reamers, 2 chipping tools and other apparatus, all operated by compressed air from an Ingersoll-Sergeant Class "A" Straight line Piston Inlet Air Compressor. The plan of distribution of air power necessitated careful engineering and close investigation of the merits of Air Compressors to secure good results. It is the high-class machine, built rigidly, embodying every detail of scientific construction, that wins in a test like this.

Catalogue No. 41, ROCK DRILLS Mines, Quarries, Tunnels, Contract Work, Good Roads.

THE JOHN H. McGOWAN COMPANY CINCINNATI, OHIO.
Branch, Richmond, Va.
PUMPING MACHINERY FOR EVERY SERVICE
SINGLE DUPLEX AND CRANK AND FLY WHEEL TYPES.

Don't be misled into thinking that you will save money if you buy a second-rate steam or electric pump. Such an investment is poor economy. You will find after you have used a cheap pump a little while that your money has been literally thrown away. The various amounts you will be forced to spend for repairs from time to time will lighten your purse. Purchase a Worthington machine. There is no better on the market. If you have not a copy of our catalogue, we will be glad to forward one on receipt of request.

HENRY R. WORTHINGTON,

VULCANIZED FIBRE CO., Wilmington, Del.

WE HAVE HEARD IT SAID

(By those who do not know) that our COCHRANE HEATERS and COCHRANE SEPARATORS are high priced NOT SO—anything but high priced. May be you got the idea because we keep telling you how good they are—what good things we put in them. Like well built mince pies they have a first class casing and "INSIDES" which make them worth trying.

We don t make the cheapest heater on the market—can do it but won't. Somebody has to decide what should go in a heater. Having 13 or 14 years of experience right in this line—we've decided—and there's no skimping

No other heater can give hotter water and better purification—is more durable or easier to clean.

Did you ever clean a heater? Not an easy matter unless it's a "COCHRANE."

Shall be pleased to hear from you.

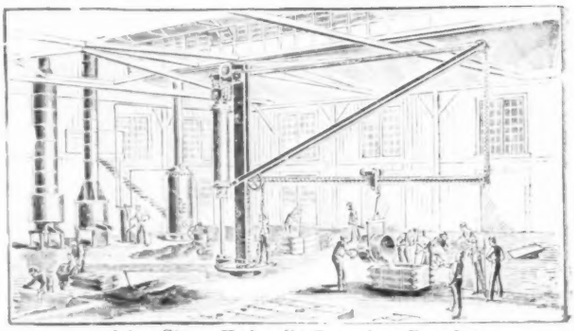
Here's the Kind of Places

That rig out with Ridgway Cranes:

The **WESTINGHOUSE AIR BRAKE CO.** of Pittsburg, Pa., who melt 160 tons of iron every day and pour it all into such light stuff as air brake cylinders and the like must certainly have somewhat of a foundry. Say, you'll believe that much, won't you, even though you have never seen it? Perhaps you may also believe that a foundry like this of such a rich company is well up on appliance—indeed if you know much about the foundry business you know the Westinghouse shop stands at the head of being up to date. Another thing, a concern like this don't have old sleepy-heads running it—we were going to say old sleepy-heads like you, but we won't. The Westinghouse brain holders are wide-awake fellows who know a good thing when they see it and—



5 ton Steam-Hydraulic Crane in a Foundry.

Well, to be brief, the **WESTINGHOUSE AIR BKAKE CO.** have adopted the Ridgway Balanced Hydraulic Crane.

We never went to see them, never sent them any circulars till they asked for them, and never bothered them in any way any more than we have you.

They asked us to come and see them and we did.

Brother, if you just knew, you would want Ridgway Cranes, too. Maybe you'll find out some day

AIR HOISTS. SWAMPED!

"Barley free all over me," as the kids holler.

We are nearly snowed under with orders for these wonderful Oil Governed Air Hoists.

Friends will kindly send their orders in as far ahead of requirements as possible. Then we may be able to keep everybody in a good humor.

People are finding out just as we have said, that the Oil Governed Air Hoist is the only sort to spend money for.

THE D. E. WHITON MACHINE CO.,
New London, Conn.

A Chuck that Holds.

The trouble with ordinary chucks is that the jaws have to centre the tool and drive it too. It's too much: like an overloaded horse, they slip, and wear out, and break down.

In the Pratt Chuck the jaws have only to hold the tool perfectly true; the positive driver does the driving. It can't slip, even if the jaws are not tightened.

It pays to have tools that will always keep at work.

SEND FOR BOOKLET.

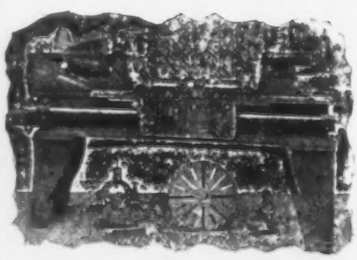
CHARLES CHURCHILL & CO., Ltd., London. SCHUCHARDT & SCHUTTE, Berlin, Vienna, Brussels. ADOLPH JANSSENS, Paris.

WHY This Lathe is the one for you to buy WHY



It has easy, quick and accurate adjustments of all feeds.
The range of feeds is very great.
Changes for screw cutting are made instantly; no gears to take off or put on.
The dimensions are liberal and in proportion to the service required of them.
The Lathe in general is easy to operate.
The workmanship insures satisfaction.

Sizes, 14 inch to 42 inch Swing. Beds in even lengths.

Owning and Operating

THE STILES & PARKER PRESS CO.

Large "Bliss" Double Crank Presses (Patented).

These Presses are used in the manufacture of sheet iron and steel goods, such as vapor stoves, paneled ceiling and siding for buildings, cornice work, etc., and for operating gangs of punches for rivet holes in tanks, water pipes, gasometers, kitchen boilers, etc. The action of the Automatic Friction Clutch is practically instantaneous and it avoids entirely the severe shock which in the use of positive clutches on very heavy work tends to destroy the clutch parts, frequently causing expensive delays and repairs. The large gear wheel instead of revolving continually, as with the old clutches, is at a standstill until the clutch is brought into action. This constitutes an additional advantage in the saving of considerable wear. Write for further particulars.

Correspondence Solicited.

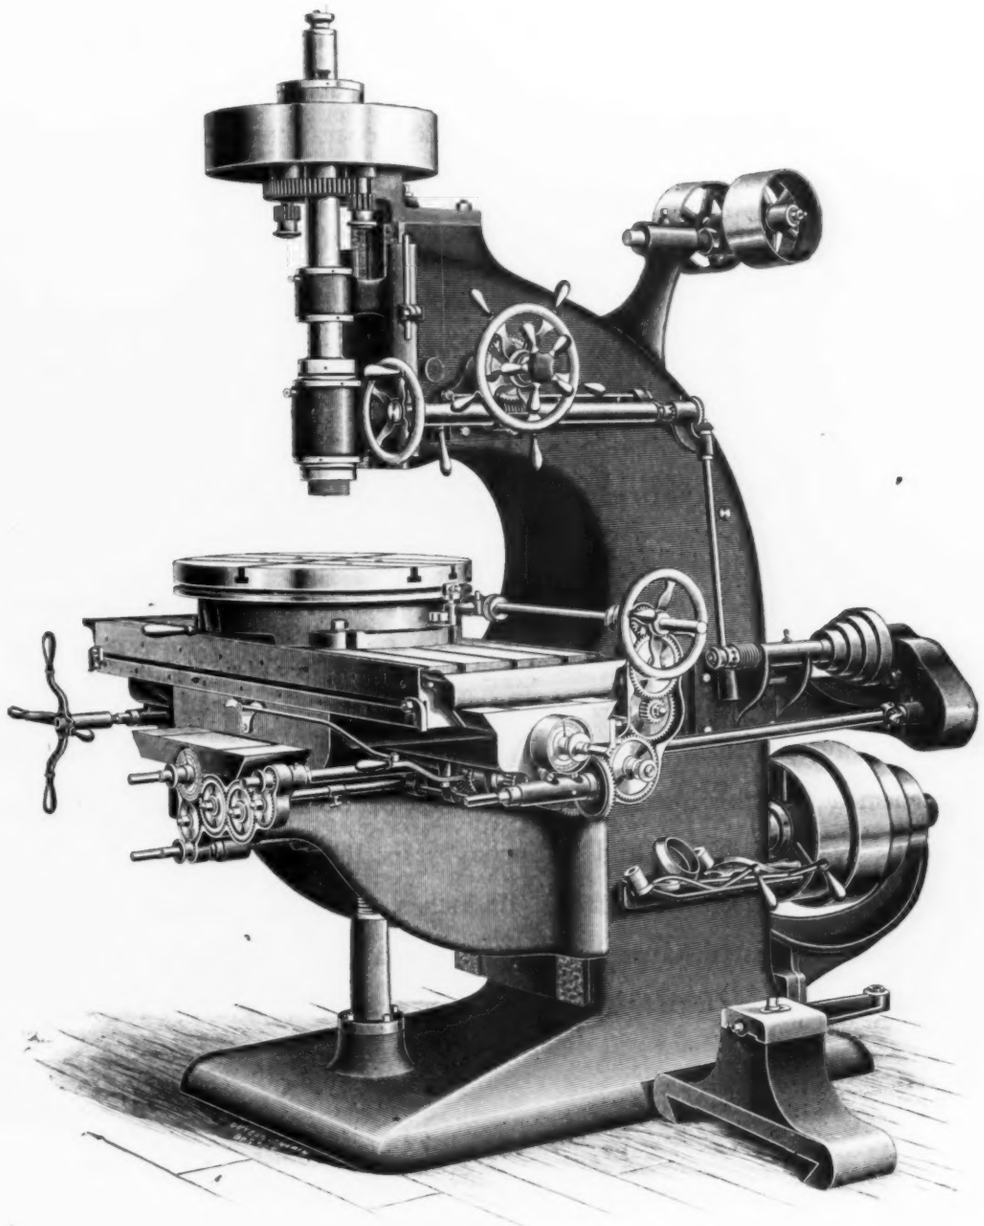
The Latest Becker No. 6 Miller.



. . . Manufactured by . . .

John Becker Mfg. Company,

Fitchburg, Mass., U. S. A.

(See Other Side of this Sheet.)

This leaf is a circular. It contains, on the other side, a full description of this machine, and is intended to be cut out (Cut on This Line) and filed away for future reference.

See picture on other side, of the

Becker Miller No. 6.

This machine is built for extra heavy milling operations and for Locomotive and Railroad shops, and is especially adapted to Ship Yard, Navy Yard and Arsenal work. Great general Utility and extreme Accuracy are its special strong points.

General Specifications.

The Spindle is back geared 6 to 1; runs in long, bronze bearings, made adjustable. Diameter of main bearing 3¾ inches. Size of hole No. 13, Brown & Sharpe taper. Tools are held by means of draw-bar. The head has automatic feed vertically 12 inches, with quick return and automatic stop dogs. Platens are furnished with this machine, in three sizes, 52, 60 and 72 inches in length; automatic feeds of 40, 50 and 62 inches respectively, right and left hand. Knee has vertical feed (automatic), 18 inches. Saddle has in and out feed, 20 inches. Greatest distance between main platen and spindle, 24 inches. Countershaft has three friction pulleys. Weight from 7,000 to 8,000 pounds, net.

Locations for Industries.

The Chicago, Milwaukee and St. Paul Railway Company has all its territory districted in relation to resources, adaptability and advantages for manufacturing, and seeks to secure manufacturing plants and industries where the command of raw material, markets and surroundings will ensure their permanent success.

A number of new factories and industries have been induced to locate—largely through the instrumentality of this company—at points along its lines.

The trend of manufacturing is Westward. Confidential inquiries are treated as such. The information furnished a particular industry is reliable.

Address

LUIS JACKSON,
Industrial Commissioner, C., M. & St. P. R'y,
Old Colony Building, Chicago, Ill.

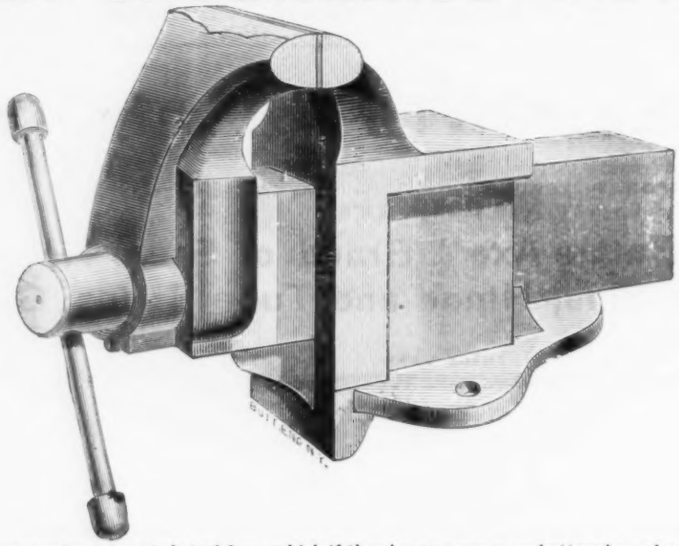
Our Mechanics' Vises.



These vises have inserted steel faces which if they become worn or battered can be removed and new ones attached without trouble.

The screw is fastened by a nut at the rear end, which is not only a substantial method but any wear can be taken up and thus save lost motion. The Vises have worked their own way into market and both the domestic and foreign demand for them is now good. There are no cheaper Vises made, the quality considered.

Take Your Choice

There are two lines of bicycles that hardware dealers can handle,

SELLERS AND STICKERS.

A bicycle manufacturer may and may not have a line that goes with a hardware dealer, a jobber picks from the whole lot the goods that he offers with the wants of the hardware dealer in view. From the many good agencies established and from the very many testimonials we have we must feel that we have been successful in our selections.

IMPORTANT DECISION RELATING TO THE

HEINISCH

TRADE-NAME ON SHEARS, TRIMMERS, &C.

The U. S. Circuit Court, Southern District of New York, Judge Townsend, has rendered a decision in the suit of "R. Heinisch's Sons Co. vs. Hermann Boker & Co."

"The Complainant is entitled to an accounting, and to an injunction restraining them from using the names 'Heinisch' or 'H. C. Heinisch' on its Shears, Labels, etc., and otherwise, in any way which will interfere with Complainant's enjoyment of the benefits of its Trade-name."

Referring to the above decision we would respectfully state our determination to protect our rights in the premises and warn all persons against any imitation of our Trade-name.

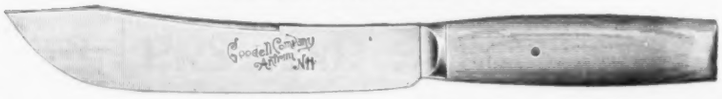
LEADERS.

You Can't Make Good knives any more than good bread without the right material, and even if you have the right material you can't make good knives if you don't know how to manipulate that material.

Solid Cocobolo Swell Handle with Bolster.

WARRANTED NOT TO GET LOOSE.



No. 146, 5, 5½, 6, 6½, 7 and 8 Inch.

Five Rivet, Scaletang Beech Handle.

NOT SO MUCH TO LOOK AT, BUT A CUTTER.

No. 446, 5, 5½, 6, 6½, 7, 8, 9, 10, 11, 12, 13 and 14 Inch.

The Steel That Goes into Goodell Butcher Knives is made for Goodell Butcher Knives and is found in no others. It is the same we have used for years. A quarter century experience has taught us how to manipulate that steel to produce the best results.

It costs more to make a good knife than a poor one, but not so much more as you might think (if you know how).

WE WARRANT OURS.

The '98 Chicago Clipper Retails For $8.75.

HARDWAREMEN—DO NOT ORDER

another old-fashioned. out of date two-hand horse clipper. Be enterprising and order the '98 CHICAGO CLIPPER. The greatest clipping machine ever invented; holds the world's record for fast clipping; time 14 minutes. You can sell one of these machines to every man who used to buy the old fashioned two-hand variety. Ask your jobber about them or send to us direct.

HAIR CLIPPERS.

If you want a clipper "with a reputation" insist on the "Stewart Patent." There is no other "just as good" and they will cost you no more than the inferior kind.

We have just been awarded Gold Medal at Trans-Mississippi Exposition, highest and only award for horse clipping, sheep shearing and cattle grooming machines.

Dry Battery Portable Electric Safety Lamp...

This is an Electric Lamp set in a White Enamel Parabolic Reflector, and can be attached to the cap or any part of the clothing by means of a stick-pin attached to reflector and connected to the battery with a flexible cord. The battery is arranged to be carried on a belt or in the pocket. So the user has free use of hands. The current can be turned off when not in use. Dry batteries are used and can be recharged fr m direct Incandescent Electric Current Charger and full directions go with each Lamp.

IS USED BY THE FOLLOWING: For Watchmen, Miners, Mine and Gas Inspectors Boiler Shops, Oil and Gas Works and Gas Fitters, City Sewer and Underground Cable Inspectors; Powder Mills and Warehouses where explosive materials are manufactured and stored; exploring cellars and trenches where leaks occur, and investigating pipe connections where it is impossible to carry an oil lamp or candle for fear of explosion—and all parties requiring a safe portable light. The whole outfit is neat and compact.

No. 1 weighs 2 lbs., 1¼ C. P. Price complete, $4.00. For Meter Reading Only.

No. 2 weighs 3 lbs., 4 C. P. Price complete, $6.00. For General Use.

No. 3 weighs 12 lbs., 10 C. P. Price complete, $12.00. For Several Persons to Work By.

Shipped to all parts of the world.

OUR HEADQUARTERS

J. Q. Warren Mfg. Co.

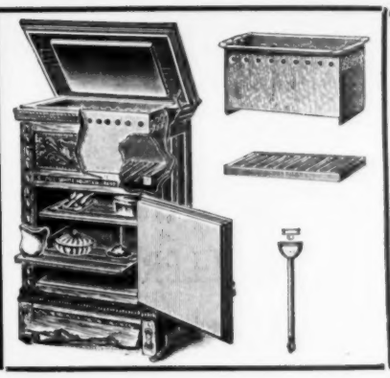
5th Floor Masonic Temple Chicago, Ill., U. S. A.

One of our New Patterns.

It has a removable ice chamber but with objectionable features obviated, and combined with that wonderful "MAINE" Ice Grate, sliding shelves, swing base, and new bronze lever locks.

Maine Manufacturing Company,

Nashua, N. H., U.S.A.



White - Mountain - Refrigerators.

KNOWN ALL OVER THE WORLD.

Our elegant 1899 catalogue now ready.

One of the finest Refrigerator factories in the world.

Our factory is never idle. We have not shut down since 1874.

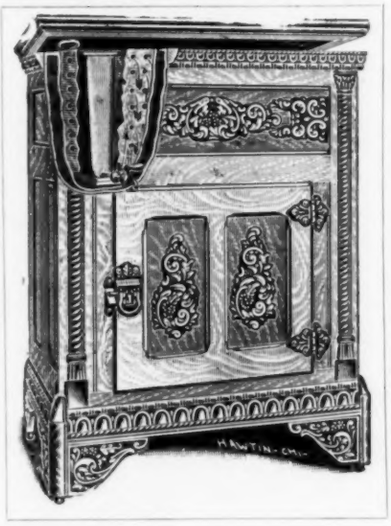
A perfect and complete Refrigerator is manufactured every six minutes.

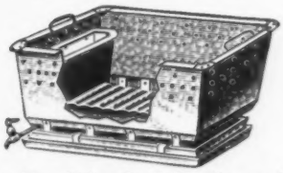
Over half a million people are using "White Mountain" Refrigerators. Everyone satisfied.

Branch Offices: *Boston, New York City, Columbus, Minneapolis, Denver San Francisco, Dallas, Tex., and St. John, N. B.*

The Gurney can be kept absolutely pure and clean

BY THE USE OF THE





Removable Galvanized Ice Compartment.

The Gurney Leads, Others Follow.

All users testify to the GURNEY'S many points of superiority.

The trade took to the GURNEY as criterion for style and finish.

Manufacturers testify to the GURNEY'S right of leadership by imitating the GURNEY style of construction.

Buy the Gurney Patent Refrigerator. It costs no more than imitations claimed to be "*Made like the Gurney.*"

GURNEY REFRIGERATOR CO., Fond du Lac, Wis., U.S.A.

Also Mfrs. of La Belle and Imperial Refrigerators. Capacity 200 Refrigerators per day.

YUKON Refrigerators.

ARTHUR BRITTAN & CO.,

136 Lake Street, - - Chicago,

General Sales Agents.

The Yukon combines all the best points of the best makes with several new features, which makes it the best Refrigerator on the market.

The Yukon is made in two styles, with ***Removable Flues,*** and with the ***entire Ice Chamber Removable.***

We note some of the excellent features of the Yukon:

Thoroughly seasoned ash lumber.
Elegance of finish.
Carved panels.
Swinging and removable base board.
Solid bronze hardware, Roman gold finished.
Zinc lined. Patent casters.
Galvanized iron flues, ice rack and shelves.
The shelves being so constructed that small dishes placed upon them will not tip over.
Patent Trap, connected with waste pipe in bottom of provision chamber, where it is most accessible, both trap and waste pipe being easily removed, cleaned and replaced, without a back-breaking process or poking with a stick.
The insulation used is ***Granite Rock Wool*** and Charcoal Sheathing.

Buy the Yukon and you will have the best Refrigerator made as well as an elegant piece of furniture.

THE TOLER
Liquid Door Check and Spring.
PERFECTION ATTAINED AT LAST.

Entirely new in style and mechanism, **strong, simple and effective**, giving in results all the best achievements of other checks, together with new and valuable features only to be found in this.

It has a vertical case, with openings only at the top.

It has no plugs or caps screwed to the cylinder ends. It cannot leak. There is no way for the liquid to escape after the Check is applied.

The piston is idle during a greater part of the opening and closing of the door, thus saving the wear on all parts.

It is made of the very best of material throughout.

It works to perfection, closing the door quickly and gently.

It is easily taken apart by anyone; no returning to the factory for anything. This saves time and money. The working of the Check will speak for itself.

Regular finish, Gold Bronze. No extra price for Silver Bronze or Dead Black when so ordered. Furnished Plated in Brass, Nickel, Copper or Silver, Plain or Oxidized, at a reasonable extra charge. No extra charge for Brackets where needed.

GLIDDEN'S METALLIC REPAIR OUTFIT

The one that has the Hinged Plugs.

THIS is the smallest, neatest, most compact and practical repair outfit ever offered to the public. Complete in a tin box 1½ inches long, 1 inch wide and ¼ inch thick. It will repair a puncture at once, without the use of cement, and any woman or child can use it. The plug is made of metal with a **hinged head, which can be forced into a much smaller opening than one with a stationary head.** Two sizes of plugs are furnished with each kit, which will fit ordinary punctures; also a cutter is furnished, to be used when the puncture is too small to admit the plug.

Directions for use. Place the flat plate of the plug so it will be loose on the key. Screw the key into the plug and insert into the hole, leaving the flat plate on the outside of tire. Draw back the key so that the plug will rest flat on the inside of the tire. Screw the flat plate to plug with wrench (left hand thread), and turn key to right. Remove the key by turning to left, and you have a permanent repair which does not injure the tire or its looks.

DISCOUNT TO THE TRADE. ASK YOUR JOBBER FOR IT.

Also Manufacturer of

Palmer's Crinoline Dress Linings,

Canopies,

Mosquito Nettings,

Hammock Accessories,

Window Screen Cloth,

Etc.

The above figure represents a reclining position in an Adjustable Hammock Support as used indoor. This support may be extended or contracted. The Seat may be lowered or raised by the adjustment of the side cords where attached to the seat.

This Support is adapted to Lawn, Veranda and *Indoor* use, and like the Trapeze Suspension, is adjustable to different sizes of Hammocks within its scope (from 6 ft. 3 in. to 11 ft.), and to giving different degrees of dip and height from floor.

For indoor summer or winter use, it will appeal to all who are inclined to ease and comfort as it can be taken from a closet, set up, and Hammock hung ready for use in one minute.

COVERT CARRIAGE and WAGON JACKS.

No. 475.

THE COVERT STEEL CARRIAGE JACK weighs six pounds and will lift 1,000 pounds.

The step is **leather covered,** thus effectually preventing the metal coming in contact with the axle and marring the paint. The step can be readily adjusted to the height of any axle. It has a direct perpendicular lift, without any horizontal or oscillating movement so objectionable in other Jacks.

COVERT STEEL WAGON JACK is made for heavy work; weighs ten pounds and will lift 2,000 pounds.

For Sale by Jobbers at Manufacturers' Prices.

COVERT MFG CO., West Troy, N. Y.

A SPECIAL HARDWARE WAGON.

Low down. Short turn. High Wheel. Saves the heavy lifting. Makes quick delivery.

Jenkins Bros., 71 John, N. Y.
Kennedy Valve Mfg. Co., 75 John St., N. Y.
Lunkenheimer Co., Cincinnati, O.
McNab & Harlin Mfg. Co., 56 John, N. Y.
Mason Regulator Co., Boston, Mass.
Wood, R. D. & Co., Philadelphia, Pa.

Vehicles.
Parry Mfg. Co., Indianapolis, Ind.

Ventilating Fans.
American Blower Co., Detroit, Mich.
Bayley, Wm. & Sons Co., Milwaukee, Wis.
Buffalo Forge Co., Buffalo, N. Y.
Sturtevant, B. F. Co., Boston, Mass.

Ventilator Appliances.
Howard & Morse, 45 Fulton St., N. Y.

Vises.
Athol Machine Co., Athol, Mass.
Bignall & Keeler Mfg. Co., Edwardsville, Ill.
Bonney Vise & Tool Wks., Phila., Pa.
Hollands Mfg. Co., Erie, Pa.
Lewis Tool Co., 44 Barclay St., N. Y.
Millers Falls Co., 93 Reade St., N. Y.
Parker, Chas Co., Meriden, Conn.
Prentiss Vise Co., 44 Barclay, N. Y.
Tower & Lyon, 95 Chambers St., N. Y
Utica Drop Forge & Tool Co., Utica, N. Y.

Wagon Jacks.
Covert Mfg. Co., West Troy, N. Y.
Covert's Saddlery Works, Farmer, N. Y.
Lane Bros. Co., Poughkeepsie N. Y.
Woodruff, Walter W. & Sons, Mt. Carmel, Conn

Wagons.
Shipman, Bradt & Co., De Kalb, Ill.

Washers.
Haskell, Wm. H. Mfg. Co., Pawtucket, R. I
Milton Mfg. Co., Milton, Pa.
Nut & Washer Mfg. Co., Milwaukee, Wis.
Sternbergh, J. H. & Son, Reading, Pa.
Wilson & Smith, Worcester, Mass.

Washing Machines.
Brammer, H. F. Mfg. Co., Davenport, Ia.

Water Gates.
Kennedy Valve Mfg. Co., 75 John St., N. Y.

Water Meters.
Worthington, Henry R., 86 & 88 Liberty St., N. Y.

Water Wheels.
Poole, Robt. & Son Co., Baltimore, Md.

Weaners
Carroll Muzzle Co., Carroll, Iowa.

Well Auger.
Iwan Bros., Streator, Ill.

Well Supplies.
Cook, A. D., Lawrenceburg, Ind.

Wheelbarrows.
American Steel Scraper Co., Sidney, O.
Kilbourne & Jacobs Mfg. Co., Columbus.
Syracuse Chilled Plow Co., Syracuse, N. Y.

Wind Mills.
Flint & Walling Co., Kendallville, Ind.

Window Cord.
Samson Cordage Works, Boston, Mass.

Window Fasteners.
Stanley Works, New Britain, Conn.

Wire.
Cleveland Wire Spring Co., Cleveland, O.
Dillon-Griswold Wire Co., Sterling, Ill.
Miller & Van Winkle, Brooklyn, N. Y.
New Haven Wire Mfg. Co., New Haven.
Norristown Wire Co., Norristown, Pa.
Pittsburgh Wire Co., Pittsburgh, Pa.
Prentiss, Geo. W. & Co., Holyoke, Mass.
Stewart Wire Co., Easton, Pa.
Townsend, C. C. & E. P., New Brighton.
Trenton Iron Co., Trenton, N. J.
Washburn & Moen Mfg. Co., Worcester.
Whitney, A. R. & Co., 29 B'way, N. Y.
Wolff, R. H. & Co., Ltd., 118th St. and Harlem River, N. Y.

A strong letter of commendation from a firm whose reputation is "world wide" as the manufacturers of the celebrated "PEARLINE."

NEW YORK, Nov. 26, 1897.

NORTH AMERICAN METALINE CO., 43 Third St., Long Island City, N. Y.

Gentlemen: Your favor of 20th inst. received; in reply are pleased to say that your Metalined Bushings have given us entire satisfaction. We first applied them in 1886 or '87 under very trying conditions, put them in fast running loose pulleys with high tension belt, and they gave perfect satisfaction since then, we have extended their use throughout our works, and they have given satisfaction wherever we have placed them. Very truly yours,

JAS. PYLE & SONS.

FOR great Tensile Strength, Elasticity and Elongation, coupled with unusual Non-Corrosive qualities,

CASTINGS AND PROPELLER WHEELS
